Get your lines back out quickly thanks to fast, effortless weight retrieval.As a leader in downrigger fishing equipment, Cannon will take your fishcatching potential to the next level with its technology and innovations. Cannon is driven by the same passion that inspires fishermen. And, it runs deep.For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov). WARNING Th To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Captain J 1.0 out of 5 stars Wish I could do negative stars. Thought these downriggers might last longer than the ones I purchased last year but I was wrong. These broke on a charter this past weekend 25 miles out. Dont waste your time with Cannon products. I purchased the 10 STX last year for Fishing Charters and commercial fishing. The two downriggers I purchased both broke within 3 months. Cannon said I could ship them back to them for repair. Id have to pay shipping both ways and pay for parts and labor.<http://eska-lift.ru/userfiles/djose-temple-experiment-manuals.xml>

These new 10 STXTS look exactly the same except for the stainless steel parts. Hopefully these will last but I really hate that Penn stopped making their downriggers. I have two that are over 15 years old and work great but they are on my other charter boat. Im really disappointed with Cannon and their customer service as of now. Its pretty bad when youre making your living 50 miles out at sea and the product youve only used twice breaks on day one of a five day trip. Im still going to give these 3 stars in hopes of them lasting half as long as my Penn downriggers.I took it apart when I got home and found that the brake pad had disintegrated and torn up the cam mechanism inside. This was only the 3rd or 4th time out fishing with this downrigger. NOT worth 300 bucks, thats for sure.Missing one mounting bolt and all of the cable terminations. Contacted Cannon, no replacement parts yet.I use it in saltwater and the swivel connection they provide is weak and broke the first time

I used it. Get yourself another, stronger swivel and you should be fine. I have only used them 34 times but I would repurchase them again today if I needed more. Pretty simple to put together and use and if I say that it must be true because my brain is not wired to understand anything mechanical. Cannot get a hold of anyone due to COVID. Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again Worth ever dime! Sorry, we failed to record your vote. Please try again In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading. We use them off a 16ft alumicraft and just attach them to the sides. I bought a pair and used them recently. The biggest complaint I read from reviews was the depth counter on the boom and inability to calibrate. I recently did some salmon trolling with these and had no issue with the depth counters. [http://cicinstall.com/testingsites/advantage\\_aviation/assets/media/djuice-gprs-manual-settinggs.xml](http://cicinstall.com/testingsites/advantage_aviation/assets/media/djuice-gprs-manual-settinggs.xml)

If I was getting picky, I wish Cannon would give you the option to buy the swivel base as standard instead of the standard mount it comes with. It mounts easily to the rail on the back of the boat and works great. Perfect size for my skiff. With the mount included I have no worries about it falling overboard. Works great!! Had it out the other day. I was using a 6 lb weight sold separately and bought the 9 gimble mount for it also sold separately and it was perfect. Best price anywhere, super. Materials seem sturdy and build quality is good. The only thing I wasn't happy about was the packaging. Item was shipped in its box which had damage. Fortunately the downriggers itself showed no damage. In prison slang, the expression automotive refers to a small band of prisoners who stick together, typically for cover, companionship, operating medication, or making money. In addition to publicly obtainable information, CARFAX has collected info from many independent reliable sources. In prison slang, the expression car refers to a small band of prisoners who stick together, usually for defense, companionship, operating drugs, or earning money. In addition to publicly available data, CARFAX has collected data from many independent reliable sources.
