This may result in malfunction. Operation of the printer when connected via unidirectional communication equipment is not tested, and as a result, Canon cannot guarantee printer operation if the printer is connected using unidirectional print servers, USB hubs or switching devices. After you finish reading this guide, store it in a safe place for future reference. This documentation has been designed so that you can easily use your machine to suit your particular needs. Setting up the machine. Setting up paper. Installing Printer Driver. Setup Instructions Document and paper handling. This means that the machine does not produce hazardous laser radiation. In order to use the machine safely, always pay attention to these warnings. You can also register your copier with us.

Call the Canon USA Consumer Information Center between 8 a.m. and 8 p.m. EST, Monday through Friday, except holidays. A nonexhaustive list of these documents is set forth below. This list is intended to be a guide only. Also do not place heavy objects on the power cord, pull on it, or extensively bend it. Also do not spill water, liquid or inflammable substances inside the machine. If these items come into contact with highvoltage parts inside of the machine, it may result in a fire or electrical shock. If these items are dropped or spilled in the machine, unplug the power cord immediately with dry hands. Then, contact your service representative. Front View ADF AUTOMATIC DOCUMENT FEEDER Open to place a document on the platen glass. PLATEN UNIT LEVER Use it to release and slide the platen unit. ADF ROLLER Feeds documents from the ADF to PLATEN UNIT the scanning unit. Slide it to the left when you install the cartridge, or remove jammed PLATEN GLASS paper. OPERATION PANEL Controls the machine. DOCUMENT FEEDER TRAY DOCUMENT OUTPUT SLOT Documents come out here. DOCUMENT OUTPUT TRAY Introduction 1 FEEDER COVER SLIDE GUIDE Adjusts to the width of the document. When no operations are performed for about 5 minutes, the machine automatically enters the energy saver mode. Some types of paper available at office supply stores may not be suitable for this machine. If you have any questions about paper and transparencies, consult your dealer or Canon Customer Relations. CAUTION 1 Grip the cassette handle, and pull it out towards you until the cassette comes to a stop. 3 Load the paper stack beneath the cassette's length guide. If copying is performed when the cassette is not pushed in completely, it will cause a paper jam. If copy paper is sticking out of the cassette Sometimes, when you pull out the cassette, paper may stick out, as shown in the illustration below.

Make sure that the paper is neatly loaded into the cassette, before you push the cassette back into the main unit. You can adjust the cassette to hold the following standard paper sizes LGL and LTR. IMPORTANT NOTE 2 Pull out the paper tray. Using other envelopes may affect the quality of the copy image. 1 Arrange the stack of envelopes on a firm, 4 Insert the stack of envelopes into the multi clean surface, and press down firmly on the edges to make the folds crisp. When a document is

placed on the platen glass, the scanning unit moves to scan it. Three modes are available for adjusting image quality. 1 Press Image Quality to select the image quality. In this case, load the letter size paper in the cassette or multipurpose tray and set the 2 on 1 copy again. Copy of the first page of the document ABC 4 CBA ADF. This section describes the necessary cleaning procedures for your machine. This is caused by paste, ink, correction fluid, or other foreign matter in the read area between and of the platen glass. Use a clean soft cloth to wipe the read area clean. Take particular care to clean at the locations where the black lines are appearing on copies. In this case, you can clean the ADF roller using the Additional Functions. NOTE If white streaks or light bands are displayed on copies, or REPLACE CARTRIDGE appears on the LCD, the toner in the Paper feeding direction cartridge is running low. And, grip the sealing tape tab and snap it in the direction as shown below. Make sure that the tab itself is detached from the cartridge. Residents of Alaska and Hawaii Do not use the UPS authorized returning label. For Alaska and Hawaii Canon set up alternative mail service with the U.S. Postal Service. Please call 1800OKCANON to receive U.S. Postal Service merchandise returning label. If the machine is likely to be subjected to vibration e.g., when transporting over long distances, the following precautions should be taken.

If you do not follow these precautions, the machine may be damaged or the quality of your copy images may be adversely affected. 1 Unplug the power cord. Grip the handles on the sides of the machine and lift up the machine, as shown in the illustration above. Do not lift the machine by any of its attachments. Dropping the machine can cause personal injury. Removing Jammed Paper from Inside the Main Unit When print media jams inside the main unit, the LCD displays REC. PAPER JAM and SLIDE PLATEN LEFT. Then, push the cassette back into the main unit. This section describes the general messages and ones related to copy functions. Message Action When collating copies or making a 2 on 1 copy of documents using the platen glass, Start is pressed before replacing a document. Replace the document then press Start. Page 62 03.7.10 326 PM Message Page 65 Cause Action PLATEN IS OPEN CLOSE THE PLATEN The platen unit is not closed correctly. Slide the platen unit to the original position. REC. PAPER JAM SLIDE PLATEN LEFT There is a paper jam. Remove or change the document from the platen glass. Paper does not feed correctly. Repeated paper jams occur. The envelopes are loaded in the cassette. If the documents have black streaks or appear dirty after you feed them in the ADF. The print quality is not what you expect; print is not clear, has missing dots or white streaks. The size, thickness and type of the paper you are using are not within the specifications of the machine. The documents may not be the letter size. The Alarm indicator comes on. If the Alarm indicator remains lit, unplug the machine, and call your service representative. Printout does not match paper size. Do not attempt to disassemble or repair the machine yourself. ADDITIONAL FUNCTIONS Ex 2. COPY SETTINGS 3 Press Set. OFF Select when you do not select the size of paper in the multipurpose tray. FREE SIZE Free size SET ON LOADING Select when specifying the paper size each time you use the multipurpose tray.

The envelope type can also be specified in SET ON LOADING. MANUAL The exposure is adjusted manually. AUTO CLEAR Sets the auto clear function. ON The auto clear function is turned on. 1 to 9 MIN. 2 MIN. OFF The auto clear function is turned off. The energy saver mode can be set. ENERGY SAVER ON The energy saver mode is set. 3 to 30 MIN. 5 MIN. OFF The energy saver mode is turned off. The time of each day to execute the energy saver function can be set. CDROMs available.
