One of the tools developed by UNIDO to serve this purpose is COMFAR, the Computer Model for Feasibility Analysis and Reporting. The third generation, COMFAR III Expert for Windows, was released in 1995. Since then, in order to meet the technical developments as well as users requests, it has been annually upgraded. The main module of the program accepts financial and economic data, produces financial and economic statements and graphical displays and calculates measures of performance. Supplementary modules assist in the analytical process. Cost benefit and value added methods of economic analysis developed by UNIDO are included in the program, with allowance made for the methods used by major international development institutions. For joint ventures, the financial perspective of each partner or class of shareholder can be developed. <http://implant-bor.ru/filippov/files/1599283093.xml>

- **comfar user manual, 1.0, comfar user manual.**

Analysis can be performed using a variety of assumptions concerning inflation, currency revaluation and price escalations. COMFAR also offers specialized modules, for example on Clean Development Mechanism CDM and on Environmental Management Accounting EMA. The software facilitates the analysis of industrial as well as nonindustrial projects, whether new investments, rehabilitations, expansions, joint venture or privatization projects. The economic appraisal module is not included in this product. Unlike COMFAR III Expert and COMFAR III Business Planner, it does not support full fledged userdefined flexibility. The economic appraisal module is not included in this product. That means, the data files generated by COMFAR III Mini Expert can be directly loaded into COMFAR III Expert or Business Planner, which is important, when investment opportunities develop into bankable projects. The software facilitates the analysis of industrial as well as nonindustrial projects, whether new investments, rehabilitations, expansions, joint venture or privatization projects. The economic appraisal module is not included in this product. Unlike COMFAR III Expert and COMFAR III Business Planner, it does not support full fledged userdefined flexibility. The UN believes that if they are trained now, it will affect the economy positively, especially when the population increases further. The software facilitates the analysis of industrial as well as nonindustrial projects, whether new investments, rehabilitations, expansions, joint venture or privatization projects. The economic appraisal module is not included in this product. Unlike COMFAR III Expert and COMFAR III Business Planner, it does not support full fledged userdefined flexibility. The economic appraisal module is not included in this product. COMFAR is accompanied by manuals, teaching materials and interlinked software for project identification and preparation. The event took place at the Isfahan Regional Centre for Technology Business Incubators and Science Parks Development under the auspices of UNESCO in the city of Isfahan from 28 November to 1 December 2015. The 38 workshop participants, including 15 women, were also TVTO entrepreneurship trainers from 19 provinces of Iran. In particular, TVTO requested specialized training on the latest version of the COMFAR software. Click here to read. Financial analysis enterprise level Userdefined flexibility Complementing UNIDO's Manual for the Preparation of Industrial Feasibility Studies 2nd ed. 1991, it permits the user to simulate the short and longterm financial situation of industrial and nonindustrial investment projects, whether new investments, rehabilitation, expansion, jointventure or privatization projects.

Backed up by the experience of more than 1500 users in 130 countries since the original COMPUTER MODEL FOR FEASIBILITY ANALYSIS AND REPORTING, COMFAR, was introduced in 1983, COMFAR III Expert offers a number of novel features that make it a dynamic tool for project preparation and appraisal Easy access easy to operate COMFAR III Expert is especially through its graphical user interface very userfriendly and therefore ideal even for those with no special computer knowledge. After having specified the project type industrial, agroindustrial, infrastructure, tourism or mining and the level of analysis opportunity or feasibility study level the user is guided through data entry, data saving, calculations, display and printing of result schedules and graphical charts. Userdefined flexibility COMFAR III Expert allows users greater flexibility in specifying how detailed an analysis they require. The little flexible model underlying COMFAR 2.1 has been replaced by an open system, in which the standardized basic structure can be expanded to fit the special needs of the analyst. The new main features are With these facilities, COMFAR III Expert can be applied to all kinds of investment projects, to smalland mediumscale business investments and for the analysis of largescale projects or for complex production units, e.g. chemical plants. COMFAR III Expert A CASH FLOW MODEL The COMFAR system distinguishes cash flows in domestic and foreign currencies while allowing for changes in exchange rates. A number of standard functions are available to compute net working capital, debt service, annual depreciation of fixed assets and corporate tax. From a variety of financial and efficiency ratios the user may select those needed for project appraisal. Direct costing, allocation of indirect costs to profit centers and analysis in constant or current prices are also available.

<http://superbia.lgbt/flotaganis/1649204691>

Financial analysis enterprise level For the financial analysis COMFAR III Expert produces, based on the corresponding input data, the following result schedules SUMMARY SHEET, INVESTMENT COSTS, PRODUCTION COSTS, PRODUCTION AND SALES PROGRAMME, SOURCES OF FINANCE AND DEBT SERVICE, BUSINESS RESULTS, comprising Financial cash flow, Discounted cash flow, Income statement, Balance sheet with ratios, data on direct costing, product profitability, FINANCIAL AND EFFICIENCY RATIOS, and BREAKEVEN CONDITIONS. Userdefined subitems may be displayed and printed in addition to the standard schedules. Sensitivity analysis With the help of

sensitivity analysis it is possible to show how net cash returns or the profitability of an investment alter with different values assigned to the variables needed for the computation sales prices, unit costs, sales volumes etc.. COMFAR III Expert facilitates the assessment of alternative project scenarios and the determination of the critical variables. A variety of graphical charts is available to analyze the structures of project inputs and outputs, e.g., the structure of the annual production and sales programmes, or the variable and operational margins and Breakeven sales volumes. The Economic analysis module of COMFAR III Expert supports the methodologies described in the Guide to Practical Project Appraisal UNIDO, 1986, in LITTLE, I.M.D., MIRLEES, J.A., Project Appraisal and Planning for Developing Countries OECD, 1982 and in SQUIRE, L., VAN DER TAK, H.G., Economic Analysis of Projects World Bank, 1984. The Valueadded methodology follows that of the Manual for Evaluation of Industrial Projects UNIDO, 1984, but is modified to include the decomposition of intermediate inputs suggested in the Manual of Economic Evaluation of Projects written by CHERVEL, M., and MICHEL LE GALL Paris, 1989.

<http://garantbouw.com/images/burglar-alarm-manuals.pdf>

Graphical presentation of results COMFAR III Expert gives the user the ability to generate graphical presentations of ratios and of structures of cash flows, costs and revenues. Nonindustrial investment projects For appraisal of investment projects in other sectors of the economy, such as agroindustrial development, mining, infrastructure and tourism projects, COMFAR III Expert offers corresponding data input formats and output tables. THE USERS OF COMFAR The first and second generation of COMFAR have been licensed to users in the public and private sectors in over 130 countries. COMFAR III Expert will serve the same user groups, such as, Development Financing Institutions DFIs, Investment Banks, Industrial Development Corporations, Small Business Development Institutions, as well as Universities and Business Schools, Consulting and Engineering companies, individual Consultants, Suppliers of equipment, and many other private and public entities involved in project preparation and investment appraisal. It is the successor of the COMFAR versions 1.x and 2.x, developed by UNIDO since The COMFAR III Product palette consists of COMFAR III Expert, designed to support the user to simulate the short and longterm financial and economic situation of investment projects in detail. COMFAR III Business Planner, designed to support the user to simulate the short and longterm financial situation of investment projects in detail. COMFAR III Mini Expert, designed to allow the user to preliminary assess the short and longterm financial situation of investment projects. The software is owned and maintained by UNIDO, and is continuously updated to meet the requirements of the rapidly growing user s group. Multilingual software facilitates international cooperation COMFAR III is currently available in English, Chinese, Czech, French, German, Italian, Japanese, Polish, Portuguese, Russian, Slovak, and Spanish. Other language versions will follow, depending on demand.

<http://www.amagato.com/images/burglar-alarm-9427-manual.pdf>

The COMFAR III Manuals are available in English, French, German, Polish, Russian and Spanish, only. How to obtain COMFAR III COMFAR III may be obtained from UNIDO under the conditions specified in the COMFAR license agreement. The lumpsum licence fee depends on the country and status commercial, noncommercial, university of the user. To determine the applicable fee please consult the license fee table. One COMFAR III package includes the right to use the software on one PC, one CDROM, one runtime key toggle, necessary to use the unprotected software, and a complete set of COMFAR Manuals. For COMFAR III Expert or Business Planner one UNIDO Manual for the Preparation of Industrial Feasibility Studies, Vienna 1991 is also included. Testing COMFAR III It is possible to download from our homepage COMFAR III Demo versions free of charge. For testing, COMFAR III Expert and COMFAR III Business Planner may be also obtained under a License Agreement with limited duration. The minimum testing period is two 2 months, the fee is US Dollar per month. A deposit of US Dollar is required for the runtime key. User support services and training

workshops Although the COMFAR Manuals, the Release Notes, and the Online Help, will normally provide all information required to understand and operate COMFAR III, it may be necessary to consult with the COMFAR Support Team. We may be reached by phone, facsimile or. Workshops for beginners and for advanced COMFAR users are organized regularly at UNIDO Headquarters, and at request also at other places. Since these workshops are selffinanced, a fee needs to be charged. UNIDO publications complementing COMFAR III The Manual for the Preparation of Industrial Feasibility Studies; Newly revised and expanded edition, Vienna 1991, is UNIDO s bestselling publication in this field. The Manual is available in English, as well as Arabic, Chinese, French, Italian, Polish, Russian and Spanish.

The Manual for Small Business; Project Design and Appraisal, Vienna 1994, and a series of Manuals on Social CostBenefit Analysis complements the CostBenefit module of COMFAR III Expert.Parametric analysis Graph. Please send to Ordered by the LICENSEE Name Name Attn. Mr. Ms. Attn. Mr. All Rights Reserved 2 This Order Form applies to all License fee categories, as specified in the COMFAR III Licence Fee list. Please refer to the Licence Fee list to determine the applicable fees. All prices are subject to change. The software and documentation are designed to be used by experienced trained individuals. LICENSEE undertakes to employ such individuals in the acquisition and the operation of the software. Payment of the fee listed above entitles the user to receive the COMFAR computer program on diskette or CDROM, the manuals to operate the program, the Protection Key, and the Manual for the Preparation of Industrial Feasibility Studies for COMFAR III Expert and COMFAR III Business Planner only, which is usually sold separately. 1. Grant of license In consideration of payment of the license fee, which is a part of the price LICENSEE paid, LICENSOR grants to the LICENSEE, and LICENSEE hereby accepts a nontransferable and nonexclusive license to use and display COMFAR under the following terms and conditions 2. Installation and use The license is for the use of COMFAR on a single computer by one user at a time. Should LICENSEE wish to use COMFAR on more than one computer or computer terminal workstation, LICENSEE must acquire from UNIDO for each additional computer or computer terminal workstation the runtime license protection key. 3. Ownership This is a license agreement and not an agreement for sale. COMFAR as well as the related copyrights or other intellectual property rights are the property of UNIDO.

This includes any enhancements or modifications made by UNIDO to COMFAR, and made available to the LICENSEE, with or without charge, during the duration of this Agreement. In particular, the LICENSEE may not, except as provided in this Agreement or upon prior written permission of UNIDO, use, copy, modify, merge, or transfer copies of COMFAR. 6. Interoperability COMFAR is designed to run on platforms graphical interfaces such as, WINDOWS. In the event that LICENSEE requires technical information regarding interoperability, LICENSOR agrees to provide such information at the cost of LICENSEE provided that the details do not violate other license agreements, copyrights, or reveal trade secrets. 7. Use restrictions The LICENSEE agrees to maintain in confidence the software and documentation referred to as COMFAR, including the successive revised versions thereto, and undertakes to ensure that its employees, contractors or agents working with COMFAR shall be bound not to disclose the software or documentation to third parties. The LICENSEE agrees to use COMFAR solely in and for the purpose of its own activities or operations. It may not transfer or copy COMFAR, whether to allied or associated bodies, enterprises, firms, institutes or persons. 8. Software support by UNIDO UNIDO agrees to provide advice at the time of the installation of COMFAR as may be necessitated by the particular requirements of the LICENSEE. The advice will be provided during UNIDOs normal business hours with the LICENSEE paying the costs associated with communication. At the request of the LICENSEE and at its cost, including travel, UNIDO agrees to provide initial training for the LICENSEEs personnel in the installation and operation of COMFAR. 9.

Tariffs, Duties and Taxes The LICENSEE shall be liable for the payment of any tariffs, duties or taxes, however designated, levied or based on COMFAR, imposed or levied by any government or governmental agency in respect of the use of COMFAR by the LICENSEE. Since the software and printed materials constituting COMFAR remain the property of UNIDO, they will benefit from the exemptions from tariffs, duties and taxes granted UNIDO in respect of its property and assets by the Convention on the Privileges and Immunities of the United Nations or the Convention on the Privileges and Immunities of the Specialized Agencies, as applicable.

10. Exclusive Rights of UNIDO and Unauthorized Use by Third Parties

a. UNIDO represents that it has the right to grant the license referred to in paragraph 1;

b. If either party has knowledge that an action, suit or proceeding arising from a claim that COMFAR infringes any patent, copyright, alleged trade secret, or other proprietary right has been or may be instituted against either party, such knowledge shall be transmitted to the other party, and UNIDO agrees to defend or settle, at its option, any such action, suit or proceeding. In the event that a final injunction shall be obtained against the LICENSEE's use of COMFAR by reason of infringement of a patent or other proprietary right, or if, in the opinion of UNIDO, COMFAR is likely to become the subject of a claim of infringement of a patent or other proprietary right as a result of the actions of UNIDO, UNIDO, at its option and at its expense, either shall procure for the LICENSEE the right to continue using COMFAR, or shall replace or modify COMFAR so that it becomes noninfringing, or shall grant the LICENSEE a credit for COMFAR, as depreciated, and accept its return. The depreciation shall be an equal amount per year over the life of COMFAR as established by UNIDO.

If there is such an injunction or potential claim in more than one jurisdiction, UNIDO shall have the right to select in each jurisdiction which of the foregoing options it shall exercise. UNIDO does not warrant, guarantee or make any representations regarding the use or results of use of COMFAR in terms of correctness, accuracy, reliability, currentness, or otherwise. The LICENSEE is solely responsible for the selection of COMFAR to achieve the LICENSEE's intended results and for the installation of, use of, and results obtained from COMFAR. The entire risk as to the results and performance of COMFAR is assumed by the LICENSEE. The number of arbitrators shall be one. The language to be used in the arbitrary proceedings shall be English. The place of arbitration shall be Vienna. The parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute. The LICENSEE may terminate this Agreement upon giving ninety 90 days written notice to UNIDO along with the return of all software and manuals. If the LICENSEE is in default with respect to any of its obligations under this Agreement, UNIDO may issue a notice in writing of such default. If the LICENSEE has not remedied the default within sixty 60 days of the issuance of the default notice, UNIDO may, by written notice to the LICENSEE terminate this Agreement. If the LICENSEE is in breach of any of the provisions under paragraphs four 4, five 5 or eight 8, UNIDO may terminate the Agreement with immediate effect by written notice to the LICENSEE. The system is used by development finance institutions, consulting firms, investment promotion organizations, training institutions, private and public industrial firms, universities as well as international and national development aid organizations please refer to the list attached.

COMFAR III Expert is widely used for international joint venture negotiations by partners from industrialized and developing countries. planned to prepare the online help and publish the manuals in Japanese. 7.3 Future development, possible cooperation Some of the above mentioned language modules have been developed in cooperation with partners organisations or companies interested in this respective language. In this case, UNIDO is giving the necessary technical support, while the actual translation work is carried out by the partner. As shown above, it is not necessary to translate all three parts Czech, Slovak, Portuguese. The preparation of the software dialogue only into a specific language is a relatively short effort and enables a user to operate screen and print projects calculated with COMFAR III Expert in this language. At the end of the translation the partner is receiving the language module incorporated into COMFAR III Expert free of charge.

The copyright and ownership of the language module remains with UNIDO. Lista de publicaciones disponibles de UNIDO en formato PDF.
