Amazon Customer 5.0 out of 5 stars We have used the electric coolers, the ceramic base dispensers, and three different brands of pumps. We have also used a cage type bottle holder that pivots to dispense water. This pump is the best thing out there for me. We had this exact pump many years ago while living in Mexico, and it worked flawlessly. http://ventsistem-bg.com/userfiles/7_3-powerstroke-engine-manual.xml

- **dolphin manual water pump 8080, dolphin manual water pump 8080 1, dolphin manual water pump 8080 2, dolphin manual water pump 8080 3, dolphin manual water pump 8080 manual.**

When we moved to the Dominican Republic, we left t our hand pump in Mexico, and bought a water cooler. I missed my hand pump from Mexico, so I purchased a new one, bit it wasnt this brand. I was. Very disappointed in it, and went back to the water cooler. After awhile, I decided to buy a different pump, like this one, but it was also a disappointment. We live in the states again, and the other day I came across this pump. I was very excited thinking it was like my old, lost friend from Mexico. I was very happy when I hooked it up and tried it out. It pumps solid, does not come apart, and never leaks a drop after filling a container. I found my old friend. If you want a pump type dispenser for 5 gallon water bottles, this is the one you want. It works perfectly. It will not work otherwise. Ask me how I know this. This is a well designed and good performing pump. But it works by adding air pressure to the jug via your hand press. This is why the plastic cap seal is so important the air pressure forces water up the tube and out of the spout. Without a seal it simply will NOT Work at all!. So dont throw out the jug seal, most can stay on and the center plug removed to allow the siphon tube inside. If you dont have this type of cap they can be purchased here. I use this as a supplement to my battery powered pump as part of my hurricane preparedness supply. In my opinion this is the pump you want to get because electric devices can fail but mechanical devices usually last longer and are more reliable. Now we can store and drink clean filtered water and dont have to life a heavy bottle or have the bulky box and spigot taking up space. This makes water portability easy and effective. I like the fact that this pump does not need batteries to run. Its good

for household use and I'm sure it will be great to use when camping as well. The pump did fit my 5 gallon water bottle, however it did not fit my 3 gallon American Made bottles without slight modification. http://steklo-shik.ru/userfiles/7_3-powerstroke-manual-swap.xml

The issue with the 3 gallon bottle is 2 fold. First, the opening at the top of the bottle is slightly too small for the pump to grasp it correctly. I saw some people in reviews suggested rubber bands and others suggested O rings. At the time I had neither. The next best thing was rubber hair ties. I used ones purchased at the local drug store they're the black ones made for extra hold and they actually resemble a large O ring. Depending on the size of the opening of your bottle you may need to use anywhere from 1 to 5 to achieve the desired effect. You may need to layer them. You'll know it's on correctly when you can tighten screw on the clamp without it releasing and the pump doesn't move. The second issue for the 3 gallon bottles is the length of the tubing. The tubing comes in 2 pieces that fit together. Because these are made for 5 gallon bottles using one tube for 3 gallons is way too short and using both tubes will be too long. I solved this by using one tube along with some plastic tubing I had. This makes it easy to switch between the 3 and 5 gallon bottles by just changing out the tubing. That being said the pump fits my 5 gallon Primo water bottles as it was intended to do. I'm very happy with this purchase and if the need arises again I would certainly not hesitate to order another one. First of all it's so easy to put together a child can do it. I bought it because reviewers say that it will accommodate a 3gallon jug and that is true, but that fact is not mentioned in the products description. You will have to cut out a piece of the second tube to shorten the length. That would require only a hack saw. I haven't done that yet, but I'm using it until it gets cut. The pumping action is smooth and fast. I detect NO plastic taste or smell just pure water. The seal is tight and the pump does not wobble when using it. I bought the pump to store with my emergency water supply. So far, it's perfect. I highly recommend it.

I wanted a pump so I don't have to lug a 5 gallon jug of water onto a dispenser. Plus dispensers are expensive. I don't care for refrigerated water I like room temperature. So this little device is perfect for me. I set the jug on the counter, so much easier than turning upside down and inserting into a small hole. Then attach this pump and I'm done. Easy. Because you're pumping water from a long straw to the bottom of the jug, as the water level gets lower it takes longer to stop running after you stop pumping. So it takes a little practice to avoid spills if you're filling a container to the top. This is not a design flaw it's the nature of pumping water up from a deep source. It's easy enough to see how it works. I read reviews of several different similar pumps and this one seemed best. I'm glad I chose this one. I will probably use it for years. I have had this one for over a year fit every brand of 5 gallon jug and works great. I use 7 days a week 365 days a year never failed me. I used mine on a 5gal jug, it attaches easily and goes to about 1 inch from the bottom. Upon opening I thought the pump head was pretty big, but once I used it, I got over it. I use it frequently and I'm considering getting rid of the cooler stand in the corner in favor of this pump. Should have bought it years ago. Just stop pumping before your container fills as it will keep flowing till the applied pressure zeros out. This is by far the best product out there for quick accessible water. I originally bought this for my mom, and then I decided to get myself the same thing. In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading. There is no battery, motor or power required. Just press the head and enjoy fresh water. Adjustable adaptor sticks tight to bottle mouth and completely blocks air from outside. It creates strong vacuum inside bottle and helps you dispense water with only 1 or 2 times of pumping to get a glass of water.

It is the Dabo Dolphin Water Pump's special feature and we were honorably given patents because of this uniqueness. By adjusting the fixing nut, you can widen or shrink the adaptor to as wide as 52mm up to 55mm. PP products are BPA free and do not leach any hazardous chemicals. In order to maintain the highest quality, we regularly conduct Material Safety Data test through the largest and

one of the most notable chemical company in Korea LG Chem. We invented the first manual hand pump for 5 gallon drinking water bottle and obtained international patents in the United States and in Korea. We have been exporting awardwinning products to highly satisfied customers for a quarter of a century. By just pressing the head of the pump the Dabo Dolphin Water Pump operates manually. There is no need for an electrical outlet. This allows you to place your Dolphin Water Pump and water bottle anywhere in your home or on your property without worrying about a power source. Dabo truly cares about the environmental challenges facing the world and is dedicated to doing their part in saving the planet. Join us in recycling the plastic water bottles used in the Dolphin Water Pump. It is not only convenient for indoor usage, like your home or office, but the Dolphin Water Pump can also be used as a water dispenser when you're on a picnic or out camping. It then pushes the water out. The reason I like this design is contrary to a spray bottle. Water would eventually deteriorate or foul any pumping mechanism any other way for anything used quite frequently. You don't have to pump the crap out of it to get water. Of course when you attach it to a new bottle it will work like a champ but even toward the end of the bottle, a couple of pressure pumps and you have water and while holding it down, keep the pressure from leaking off. Once the button is released, it seems there is a leak off valve to release any built up pressure.

Just remember to screw down the sleeve to seal the bottle for usage. We take it with us camping and it is exactly what we need. We buy a jug of water on the way to the campground and this pump gives us water at the campsite. It is easy to assemble and take apart. The pump works great and it screws on tight so you can move the jug around without any water spilling. We love it. There are many imitations out there. one to get! Don't be fooled by lesser quality imitations. Your eCTM will be stored in that account. If a Member has multiple Program Credit Cards they cannot be linked to the same Triangle Rewards Account. A Member can request the issuance of additional Triangle Rewards Cards that have the same account number as that Member's Triangle Rewards Account. Collecting electronic Canadian Tire Money eCTM can be collected when you purchase Eligible Merchandise see below at participating Canadian Tire stores or online at canadiantire.ca or such other web site as may be designated by Canadian Tire from time to time. To collect eCTM you must present a Triangle Rewards Card or use a Cardless Method described below. You can also collect eCTM on that portion of a purchase charged to a Program Credit Card. The Program Credit Card must be linked to a Triangle Rewards Account at the time the purchase is made in order to collect eCTM. The amount of eCTM collected on fuel purchases depends on the number of litres purchased. A minimum fuel purchase may be required before eCTM can be collected. The rate of collection may vary from time to time and by location and by type of tender used for payment so check at your local Canadian Tire gas bar. You can also collect eCTM on purchases that you make at other merchants that are charged to a Program Credit Card. The rate at which eCTM can be collected may vary from time to time and by location and is subject to change by Canadian Tire without notice.

In addition, you may collect eCTM at a different rate if you pay with a Program Credit Card than you would if you use a Triangle Rewards Card or Cardless Method. Purchases made in a foreign currency with a Program Credit Card are first converted into Canadian currency as set out in the cardmember agreement prior to calculating the amount of eCTM that you have collected. If you use a Triangle Rewards Card or Cardless Method, it must be swiped or scanned or your phone number provided, as the case may be, before you make your purchase. When shopping online at canadiantire.ca or other website as designated by Canadian Tire, you must enter your Triangle Rewards Account number at check out to collect eCTM. Members are also eligible to collect bonus eCTM, or to collect eCTM at a promotional rate offered from time to time on the purchase of select items, upon the occurrence of certain events or as part of a promotion or offer, but unless otherwise indicated, bonus eCTM or eCTM awarded at a promotional rate is awarded only once for a transaction. You cannot use a Triangle Rewards Card or Cardless Method together with a Program Credit Card. If you charge a purchase to a Program Credit Card, you will only earn eCTM at the applicable Program Credit Card rate then in effect, even if you also present your Triangle Rewards Card or Cardless Method. However, if you redeem eCTM to pay for part of a transaction and pay for the balance of the transaction with a Program Credit Card that is linked to a different Triangle Rewards Account than the account from which the redemption is occurring, all eCTM collected in respect of that transaction will be credited to the Triangle Rewards Account from which redemption is occurring. You will not be able to collect eCTM on that portion of a transaction in respect of which you redeemed eCTM.

However, we may, from time to time and at our discretion, have special offers or promotions that would allow you to collect eCTM on that portion of a transaction in respect of which you redeemed eCTM. If you use more than one Program Credit Card to make a purchase e.g. split the cost between two or more cards, all eCTM collected on that purchase will be credited only to the Triangle Rewards Account linked to the first Program Credit Card that is presented. If you make payment using a Program Credit Card in combination with some other form of tender, only that portion of the purchase charged to the Program Credit Card will earn eCTM at the then applicable Program Credit Card rate. That portion of the purchases made with the other form of tender may be eligible to earn eCTM at a different rate. Delays may occur in recording eCTM to a Triangle Rewards Account. Redeeming electronic Canadian Tire Money eCTM can only be redeemed for merchandise including applicable taxes at participating Canadian Tire stores or at other locations designated by Canadian Tire. To redeem your eCTM you must present your Triangle Rewards Card or Cardless Method or Program Credit Card to the cashier with your purchase. Please note that in some Canadian Tire

stores it may not be possible to simply provide your phone number when redeeming eCTM; presentation of your Triangle Rewards Card or Program Credit Card or scanning of the Program App may be required instead. You may not redeem eCTM from more than one Triangle Rewards Account for the same transaction. You must have enrolled in the Program, or have activated your Program Credit Card, in order to redeem eCTM. What Happens When an Item is Returned. If you return an item for a refund and had received eCTM when you purchased such item, such amount of eCTM will be deducted from your Triangle Rewards Account.

Merchandise that was purchased either in whole or in part by redeeming eCTM may not be returned for cash, rather, the connected Triangle Rewards Account will be credited with the same amount of eCTM used to make the original purchase. Expiration of Electronic Canadian Tire Money We may expire the eCTM in your Triangle Rewards Account in the event that there has been a period of inactivity of 18 months or more. For the purposes of this section, "inactivity" means that there has been neither a transaction in which you have collected eCTM, nor a transaction in which you have redeemed eCTM during the period in question. Termination of Membership and Cancellation of the Program Membership may be terminated by Canadian Tire if any of the following events occur A the Member has failed to comply with any of these terms and conditions, or Canadian Tire determines that the Member has abused the Program or has made any misrepresentation or false statement to Canadian Tire; B the Member dies; C the Member becomes bankrupt or insolvent or any bankruptcy or insolvency proceedings are commenced by or against the Member, D the Member is charged with a "designated offence" as defined in the Criminal Code Canada, E the Member's Program Payment Card is terminated by Canadian Tire Bank, or F Canadian Tire suspects the Member of any fraudulent activity in connection with the Program or the use of a Program Payment Card. A Member may choose to cancel his or her membership by written notice sent to the address below or by calling Program customer service. Termination or cancellation of membership in the Program will result in the immediate closing of the Member's Triangle Rewards Account and the cancellation of all eCTM in such Triangle Rewards Account without any compensation or other liability to the Member. Termination of a Member's Triangle Rewards Account will also result in the Member no longer being able to use a Program Payment Card linked to the Program.

Canadian Tire may, in its sole discretion and at any time without prior notice either i cancel the Program or ii except if you are a Member residing in Quebec, Ontario or such other province where prohibited by law, establish a date upon which eCTM will expire and may no longer be used.

Merging Triangle Rewards Accounts At Canadian Tire's discretion, Members may be able to merge their Triangle Rewards Accounts into a single account. That merged account will bear the Triangle Rewards Account number of one of the accounts being merged and one Member will be designated as the holder of that account with full power and authority to deal with the account, including closing it, and will become the "Member" hereunder. All Members wishing to merge their Triangle Rewards Accounts will need to consent to the merger and agree on which account number will be designated as the number for the newly merged Triangle Rewards Account and who the accountholder will be. All remaining Triangle Rewards Account numbers will be cancelled and the persons who are not designated as the accountholder will no longer be Members in the Program.

Donating electronic Canadian Tire Money Members may be able to donate their eCTM to select charities or community groups. Please visit the Program Website for details about donating eCTM.

Lost or Stolen Triangle Rewards Cards If a Triangle Rewards Card is lost, stolen or destroyed, Canadian Tire will issue a new card on presentation of proper identification, and the balance in the Member's Triangle Rewards Account will be transferred to a new Triangle Rewards Account.

Canadian Tire assumes no responsibility if eCTM has been used by anyone who presents a lost or stolen Triangle Rewards Card, Cardless Method or Program Payment Card before Canadian Tire is notified of such loss or theft. Partner Locations We may, from time to time, designate certain other merchants as locations at which you can collect or redeem eCTM a Partner.

If you redeem eCTM at a Partner we are not responsible for any loss, damage, injury, death or expense as a result of any item or service you acquired at such Partner. General eCTM is not exchangeable and cannot be redeemed for cash or made subject to any security interest. These terms and conditions, as amended by Canadian Tire from time to time, constitute the entire agreement between the Member and Canadian Tire with respect to eCTM. On occasion, Canadian Tire, our various businesses within the Canadian Tire family of companies and any Partners may communicate special offers, information and services to Members by email, text message standard text messaging and data rates may apply or other communication preferences selected by you using the contact information you have provided. Any Member who does not wish to receive these offers may so indicate on the Program Website or by calling Program customer service at 18002268473. Please note that even if you have opted out of receiving marketing communications, we may still contact you for the purposes of administering your account and sending you transactional or operational messages. Any waiver by Canadian Tire of any of these terms and conditions at any time does not mean that Canadian Tire cannot rely on these terms and conditions at any subsequent time. No delay or omission by Canadian Tire in exercising any right or remedy hereunder shall operate as waiver thereof or of any other right or remedy. All Triangle Rewards Cards remain the sole property of Canadian Tire and, if requested by Canadian Tire, must be returned to Canadian Tire upon the cancellation of a Member's membership in the Program. The Member is responsible for informing Canadian Tire of any change to his or her personal information e.g. name, address, email, etc., by visiting the Program Website or by calling Program customer service.
