Updated: 8 February 2021 Veterans Day is one of the eleven federal parties in the United States for federal parties in the United States for federal parties in the United States. died during military service, Veterans Day is the day when the public celebrates those who served in the US military, whether it is the army, marine, body of the Marines, the national guard, of the aeronautics or coast guard. The Veterans Day is the day when the public celebrates at the end of October or early November and is a day full of fashion shows, discounts and a precious lesson in history. Here there are 5 interesting facts about veterans day. We celebrate it every year, but how was the veteran day born? Dates back to the signing of the First World War, also known as the Great War, it was November 11, 1918, that the war was truly terminated with the TM entry into force of the armistice, namely the temporary cessation of hostility between German and allied nations. In the following November, in 1919, President Woodrow Wilson became known as the president who celebrated the first commemoration of the day of the armistice. The name changed after the Second World War and the Korea War in November 1938 when it became the Federal Festival we know and honor today, Veterans Day, dedicated to American veterans of all wars. On this day, every state celebrates its own veterans in its own way. The most common show is a parade full of veterans, school bands, American flags and patriotic music. The largest of these events takes place in New York, but the longest of veterans is held in the south, specifically in Birmingham, Alabama, and takes place since 1947. A DC, Arlington National Cemetery organizes a deposition ceremony of the garlands at the tomb of the unknown soldier, while the famous Blue Angels take over the skies of Florida. Churches participate in prayer services while government buildings proudly display the red, white and blue flag. But let's not forget about food for the Day of Veterans. In addition to having great entertainment, veterans often receive funin restaurants and local shops. Often local restaurants or fast food offer free breakfast during Veterans Day and drinks or treatments to those who have a valid form of military ID. While some have a veteran organization membership card to show, others can offer unloading documents or even wear their uniform as an identification form, which can be enough for some places. Not only veterans receive discounts, but also the general public receives some benefits, one of which is free entry to any National Park in the United States. Because it's a federal party, all non-essential government offices are closed for the day, although it varies from state to state. Banks are often closed for Veterans Day, such as the four large, JPMorgan and Chase, Bank of America, Wells Fargo and Citibank. Post offices, schools, libraries and markets have also turned off, leaving National Parks as a great option for your day off. Veterans Day is much more than just fashion shows, music and free food. It is an opportunity to show our gratitude to military men and women fought to keep our country safe and free. It is a time when we can go back from running about our daily lives and teach our children about the history of our country, the battles that many continue to fight. Complimentary photo: Mandel Ngan/AFP/Getty Images While many of us now consider Memorial Day the unofficial start of the summer season, the original intent behind the occasion has a much more sober and focused meaning on honor. This federal holiday was formalized as a way of remembering and mourning members of the United States Army who died in service, and people often mark the occasion by visiting cemeteries and decorating stones of soldiers fallen with flags and crowns. In 1966, Congress and President Lyndon B. Johnson recognized Waterloo, New York, as he had celebrated the first Memorial Day 100 years earlier. However, more cities claim to be the birthplace of Memorial Day, and the long evolution of the holiday makes it unclear where exactly it began. On top of this, there are many persistent myths about how Memorial Day started. Learn more about these and how they refer to the origins of the holiday. While people commemorated the sacrifices of soldiers for as long as there were conflicts, Memorial Day as we know in the United States had its beginning during the American Civil War. During the war, some people began the practice of decorating the tombs of soldiers who had been killed in battle and saying prayers for them. And, as the civil war stopped, the people of the whole North and South continuedthe soldiers fallen like this. Since the practice of decorating soldiers tombs has become more common, it also began to obtain a more formal recognition. Photo courtesy: dsharpie/E+/Getty Images This ceremony was held on 1 May 1865, in Charleston, South SouthThe black local churches brought a gathering of about 10,000 people, many of whom were previously enslaved, in a correct removal of Union soldiers whose remains had been deposited in a mass grave. The groups also held a ceremony to honor the sacrifice of the soldiers and dedicate the new cemetery. The event included speeches, laying crowns and crosses, exercises performed by Union soldiers and historians are not sure if this should be considered the first Memorial Day. Numerous places around the country claim to have celebrated the first commemorative day as a recurring holiday rather than a unique event. Boalsburg, Pennsylvania, cites a gathering of 1864 women to mourn the dead of soldiers at the Battle of Gettysburg as what makes him the founder of the holiday, while Carbondale, Illinois, claims two markers in his cemeteries and a parade led by Major General John A. Logan (more on him at a time) as proof that he held the first annual celebration. There are also Colombo, Mississippi, with competing claims. Photo Courtesy: MediaNews Group/Orange County Register/Getty Images While Waterloo, New York, eventually won the federal recognition because of the evidence that his celebrations involved the complete closure of the city, he has over 20 title rivals, and all of them — even Waterloo — rely on evidence that is at least a bit of a match. But there is only one event that does not ambiguously serve as a precursor to Memorial Day. Major General Logan was the head of the Grand Army of the Republic (GAR), an organization of civil war veterans. With increasing popular support for ceremonies celebrating fallen soldiers, in 1868, he declared on May 30 to be the Feast of Decoration, a holiday specifically intended for the ornamentation of the fallen soldiers in 1868, he declared on May 30 to be the Feast of Decoration, a holiday specifically intended for the ornamentation of the fallen soldiers. because it is then that the flowers are blooming throughout the country and then ready to be left on graves or because on May 30 is a day when civil war battles were not fought. courtesy photo: Anna Moneymaker/Getty Images While Decoration The day was not a national holiday, it was widely commemorated throughout the country. In 1890, a state holiday was made by each of the states of the South, however, continued to celebrate memory until the First World War. The Confederate memory until the First World War. The Day of Decoration became a federal holiday in 1888, although it only appealed to government employees in Washington, D.C., as well ascustomary at the moment. However, other states began to adopt the holiday in time until each state eventually commemorated it. While the United States moved from the civil war to participate in other conflicts, especially the First World War, the holiday expanded also to include honoring allThat died in the duty line. At the end of the Second World War, "Memorial Day" had also supplanted the name "day of reconstruction". Photo of courtesy: Rhyman007 / E + / Getty Images in 1968, a law has made official change official. He also moved the Memorial Day to his modern date: the last Monday of May. This law, called Uniform Monday Holiday Act, has entered into force in 1971 and created the annual Memorial Day Weekend that Americans know and love today, but also angry people who heard him move attention from memory To enjoy leisure time. As states at the end fell in line, many veterans continued to speak dissent on the problem. Photo Courtesy: MediaNews Group / Orange County Register Via Getty Images / Getty Images / Getty Images / Getty Images Independence and freedom by the British Empire. Although the Continental Congress voted in favor of independence from Great Britain on July 2nd, it was not until July 4th that the revisions of the declaration were completed. Most delegates have not signed the document until August 2nd. Since then, Americans have celebrated July 4 in many ways, even though it was not until 1870 that a holiday was declared. From fireworks to fashion shows, here's like â € "and because â € â €" Americans celebrate July 4th while people often celebrated on 4 July in decades after the revolutionary war, there was little regularity for the holidays. John Adams described a spontaneous party in Philadelphia in the first country fireworks in 1777, but none of these celebrations became annual celebrations. Bristol Rhode Island held the oldest continuous celebration of the fourth July of 1785, but it was not until after the war of 1821 that these events became common throughout the country. Photo of courtesy: Spencer Platt / Getty Images The first celebration of 4 July includes shows, speeches, parties and ceremonies of Brindisi. Previously, there was a British tradition of using celebratory toasts on the birthdays of the monarchs and other events to speak indirectly of current political events, and was soon applied to 4 July. Towards the half of 1790, the Federalists and the Democratic Republicans - the two main political parties of the time â € "they kept the fourth of July separated the events in which the holidays have distinctly the political tones. In 1800, the fourth was used by everyone from native abolitionists to spread their political goals. On 4 July it was not only a moment to celebrate the country's past, but also to plan his future. While it was not yet a federal party, it was an important celebration, with a European observer who was going to describe it as The only holy day held in America ". For most of the United States, the American revolution brought freedom from the British crown, did not finish slavery. In fact, many of the founding fathers owned by slaves, while the British abolished slavery three decades before the United States in 1833, courtesy photo: Library of Congress / Getty Images in a speech later known as "What to the slave is the fourth of July? "Abolitionist and former slave Frederick Douglass Do in inheritance from your fathers, is shared by you, not by me. The light of the sun that brought life and healing You, led to stripes and death for me. This fourth [] July is yours, not mine. You could rejoice, I must cry." After the civil war, black Americans suddenly had reason to embrace the holiday, with huge celebrations sweeping the south. White Americans, however, were affected by their participation in the fourth July. Through a combination of new laws and acts of violence, the black celebrations of the fourth July as a particularly violent holiday today, wrestling and other forms of controlled fighting were once so popular to celebrate American independence. An account in the Library of Congress of a woman who lived in Oregon during the 1970s describes a tradition in which "the men who drank in fighting and were called the other English" in a rather creative reenactment of the American Revolution. Photo courtesy: Dea / M. Seaseller / Getty Images Similarly, a South Carolina man describes a kind of July combat tournament: "A large barbecue and picnic dinner would be served; candidates for military, state and national offices spoke; the hard liquid would flow; and each section will present its $\hat{a} \in \hat{a} \in \hat{a$ fighter award. "The great boxing games, such as the World Championship match of July 4, 1910 between Jack Johnson and James Jeffris (illustrate above), were also important designs on the day of independence. Needless to say that the celebrations of the fourth of July still underline the foundation of the country, independence from Britain and American freedoms have won over time. However, the observance of the holiday has shifted over time. Decrees, injuries and destruction of the property caused by fireworks, alcohol consumption and even tetanus toy guns led to safe and healthy movementSurveillance of the fourth of July movement, which called the less dangerous celebrations of independence day. As a result, the fourth of July today is very tamer than it was once. Photo of courtesy: Joshua Lott / Getty Images Furthermore, while the speeches of elected officials were once an essential part of the holiday, few people The day of independence focused on politics. Instead, due to a growing standard of living and a shorter working week thanks to the work movement, many Americans use the holiday as a chance to enjoy the summer and keep cookouts with friends and family. Freedom and patriotism are still the reasons of the season, but hot dogs and hamburgers just outside the grid also help keep Americans excited about the Independence Day. Morning.
