All described in detail and in a simple way. Best book for a novice or semi-professional trader to become a professional Trader. Thank you Mr. Gujral. Launchpad for orbit TA. There is no better place than this essay filled book to begin your journey of understanding the world of technical analysis. I highly recommend this book over reading articles from the internet at the beginning. It will help you understand the concepts of TA and why and how to benefit from it in your investments and trading strategies. Everything you need to know about stock market technical analysis (with Indian context) is here. -----P.S. Don't yell at me. I need money to build my library. P.P.S. You could lose all your hair in the process of making money. Everything you need to know about stock market technical analysis (with Indian context) is here. -----P.S. Don't yell at me.
