You can see a list of supported browsers in our help center. help Center The Crusader can adapt a wide variety of roles in Diablo 3 to 128; Here are some of the best buildings that cover them. Usually, a class type gives other players an idea of what the game will be like. A great welcome to this rule is the Crusade of Diablo 3. The role is able to support, sink, weld, group, damage a single target and damage the area. And "capable" is being modest. The Crusade is a force that must be taken into account in one of these aspects. You might get tired of seeing the phrase "best in the game" at the end of this article. It's not exaggeration. Starting from this writing, a crusader is one of the only two classes this year to free Greater Rift 150 and all the best times in three and four groups have a crusade in the team. The hardest part to do this article was ranking which of these "best in the game" was the best because © Everyone's worth it. Roland Sweep Active skills: Sweep Attack (Blazing Sweep), Steed Charge (Draw and Quarter), Akarat's Champion (Prophet), Laws of Value (Untopable Force), Condern (Vacuum), Iron Skin (Flash) Passive skills: Heavenly Streth, Holy Causa, Indestructible, Finery Armor; Roland's Visage (Flawless Royal Diamond), Roland's Mantle (flawless real diamonds), Roland's Grasp, Strongram Bracers, Captain Crimson's Silk Girdle, Roland's Determination19;160;(Flawless Royal Diamantis), Captain Crimson's Wadders Jewelry: The Traveler's Pledge, The Compass Rose, The Convention of Elements Weapons: The Furnace (Flawless Royal Emerald) Denial Caldessann's despair, Streth Legendary Gems: Zei's Stone of Vengeance, Bane of the Trapped, Bane of the Stricken Item Stat Priorates: Cooldown Reduction (up to 55%) Fire Damage, Sweep Attack Damage, Critical Hit Damage, Critical Hit Chance, Area Damage, Life For Hit KanaI's Cube: Golden Flense, Aquila Cuirass, Ring of Royal Grandeur Even without putting a single statistic to in the Attack Speed, the Roland's Legacy set will give the Crusader the fastest attack speed of combination in the game o. This goes hand i n hand with Bane of the Stricken, which will do more damage to a target that has been attacked. Sweep attack is an effect area that will free the groups, so no © individual objectives © mafiosi will pose a great threat to the construction of Roland Sweep. This is perhaps one of the reasons why the crusader who uses this construction can clarify up to Greater Rift 131 without need of any assistance. As a bonus, see how many statistics you can stack that give life to the attack; this will ensure that anything less than a stroke of grace can be healed literally more that the eye can beat. SoTL Blessed Hammer Active Ability: Blessed Hammer (Limendless), Sword Falling (Rapid Decant), Iron Skin (Steel Skin) Value Law (unstoppable) (unstoppable) Provoking (Too Pared to Run), Akarat Champion (Prophet) Passive Skills: Fervore, Cause Santa, Blunt, Elegant armor: Crown of Light (Flawless Royal Diamond), Mountain of Light, Heart of Light (Flawless Royal Diamonds), Volontà della Luce, Vambraces by Gabriel, Silk by Captain Crimson Girdle, The Captain Crimson's Thrust (Flawless Royal Diamonds), Foundation of Light Jewelry: The traveler's pledge, The compass rose, Oxydian ring of the zodiac weapons: Topic of Johanna (Flawless Royal Smerald), Johanna Caldessann Desperation Guard Legendary Gems Force: Quick Gogok, Bane of the Trapped, Bane of the Stricken Article Priority: Cooling reduction (up to 55%), Santo Danno, Blessed Hammer Damage, Critical Hit Damage, Critical Hit Chance, Attack Speed Cubo KanaI: Faithful memory, Hammer Jammers, Ring of Royal Grandeur Diablo 2 Fans who lose the Paladin of that time will find a house and then a little right here with the Red Crusade Sawm Light Seeker. This construction actually puts the old Hammerdin to shame in terms of quantity Blessed Hammerer, which will completely cover the screen. It's one of the reasons why this building can exceed the Grande Rift in solitary at 133. For those struggling with some complicated class mechanics, this is probably the simplest build of any class of the game to run. Keep on all three fans, landed in the middle of the opponents with the sword falling, then throws a gust of hammers. Like building Roland Sweep, the SoTL Blessed Hammer Crusader only needs some life on attack statistics to stay healthy. AoV Heaven's Fury Active Skills: Pugno dei Cieli (Fissure), Pelle di Ferro (Flash), Furia del Cielo (Fuochi del Cielo), Steed Charge (Disegno e Quartiere), Leggit del Valore (Forza Inarrestabile), Campione di Akarat (Fastful) Passive Skills: Long Arm of the Law, Sky Force, Fineness, Armour of the Sacred Cause: Corona di Valor (Flawless Royal Diamond), Spalle di Valor, Brigadina di Valor (Flawless Royal Diamonds), Guanti di Valor, Bracer of Fury, Seta Belt by Captain Crimson, Thrust by Captain Crimson (Flawless Royal Diamond) Greaves of Valor Jewelry: The Pledge of Traveler, The Compass Rose, Convention of Elements Armi: Destino del Fell (Flawless Royal Emerald), Scudo di Fury La disperazione di Caldessann Aumento: Legendary Gems Force: Banes of the Powerful, Banes of the Shots, Banes of the Object Trapped Status Priorities: Cooling reduction (up to 55%), Holy Damage, Sky Fury Damage, Critical Shot Damage, KanaI Cube Critical Random: La Fornace, La Corona di Leoric, Anello di Grandezza Reale It is typical for a complete set of armor to increase the damage of a single move from about 10,000% to 12,000%. I wonder why they made an exception, but the set Aegis of Valor increases theof two moves (Heaven's Fury and Flst of the Heaven) of an enormous 20.000%. And these are wildly easy to spam moves with a lot of other equipment that will increase the damage. Consequently, as a consequence, building has only cleared up to Greater Rift 143, which is already impressive, but which is not even the best part. Poiche. © It i s recognized as having the highest single target damage in the game between any class, all three or four groups that are serious about compensation Greater Rift 150 have carried along an AoV Heaven's Fury Crusader, A quick look through the rankings indicates that no group has done this without one. Akkhan Bombardment Active Abilities: Punish (Celerity), Steed Charge (Draw and Quarter), Akarat's Champion (Prophet), Laws of Gemor (Unkarpable Force), Iron Skin (Reflective Skin), Bombardment (Barrel of Spikes) Passive Capacity: Iron Maiden, Heavenly Strength, Hold Your Ground, Lord Commander Armor: Helm of Akkhan Bane of the Trapped, Bane of the Stricken Item Stat Priorities: Cooldown Reduction (up to 60%), Physical Damage, Bombardment Damage, Area Damage, Thorns KanaI's Cube: The Mortal Drama, Belt of the Trove, Ring of Royal Grandeur Starting from this writing, only one character beat Greater Rift 150 only that is not the Necromancer, And it's the Akkhan Bombardment Crusader. Bombardment should be a move that is on a minute of cooling, but Belt of the Trove actually launches the move passively every four seconds and the effect is devastating as it seems. This ability is not able to hit critically, but it is not like it counts for enemy clusters, as they are quickly swept off the map. In fact, this lack of dependence frees the Crusade to pile up the thorns as a secondary state that will greatly increase the damage of Bombardment. As for the other character constructions, the damage to the area of this construction is too high and dominant on the classifications to select anything else. NEXT: Diablo 3: The best necromancer is being built, I tried sorry but Brock would be completely erased in 2021 Your drying pan will not protect you from the wrath of company cancellation, Brock.
