In the section on Witchcraft, Huson describes which plants were traditionally used for what purpose, and gives examples of how people have used them. Discussing herbs for exorcism, love and divination and other magical pursuits such as scrying. The culmination of the chapter, and book, in my opinion, is the section on witchese. ointments. Huson doesn't hesitate to discuss them in detail, analyzing some old recipes, and the solanaceous plants of the witches' garden. He generally illustrates his non-fiction books himself, and has designed a deck of tarot cards based upon his research, "Dame Fortune's Wheel Tarot" (2009). In 1965 he studied with the Stella Matutina and Israel Regardie. Television and Movies: In 1954 Huson played the part of Edward V, one of the Princes in the Tower, in Laurence Olivier's film of Shakespeare's "Richard III". Huson was born on September 19, 1942 in London, England, the son of the author Edward Richard Carl Huson and painter and motion picture costume designer Olga Lehmann. In addition to writing books about occultism and witchcraft, he has worked extensively in the film and television industries. Two fiction books followed, "The Keepsake" (1981), and "The Offering" (1984), and a second work on the history of tarot symbolism and tarot reading, "Mystical Origins of the Tarot" (2004). Paul Huson is a British-born author and artist currently living in the United States. The book also serves as a resource for further study. The tables of weights and measures and glossary will continue to be useful. The bibliography is most considerate. Also divided by category. Huson lists numerous resources for continued studies. Categories like the Old Herbalists, Medicine and Formulas, and Witchcraft and Wortingcunning are topics of interest for anyone looking to continue studying traditional herbal practices.
