HereeAAÄs how to convert your book. Step 1: Click on the book in your list that youeAAÄd like to convert to ensure it is highlighted. Step 2: Click Convert Books from the top menu in Calibre. You can also right-click on a book and select Convert Books, then choose Convert Individually or Bulk Convert. Step 3: In the pop-up window, ensure "AZW3" is showing as the Input Format at the top left. At the top right, where it says, Output Format, select PDF from the drop-down menu. Step 4: IteAAÄs also possible to adjust output settings like line height, font size, and so on, but we recommend converting the book first to see how it looks eAAÄ you can always re-convert it later if you need to adjust any settings. Most books are fine with the default settings. Step 5: Check that the title and author on the right side of your screen are correct. Step 6: Click OK at the bottom of the screen and the conversion will begin. Step 7: Once iteAAÄs finished, the job counter at the bottom right will return to zero. Step 8: When you highlight the book in your list, at the right of your screen under Formats, you should now see a blue link that says "PDF." Step 9: Click this to open your book in PDF format. Step 10: By default, Calibre stores e-books to the Calibre Library folder on your hard drive. Step 11: If you want to send the book to yourself (via email, for example) to read on other devices, you can select Click to Open on the right-hand side of your screen in Calibre, under Formats. This will bring up all the files associated with that book, including the cover, on your hard drive. Remember that you should never share a DRM-free e-book with somebody else, as this is a breach of copyright law. Editors' Recommendations Recommendations
