Don't forget to update the app to try it out. Made with love by artist Voila AI I've used this app a lot and I'm amazed at the results... Fantastic is all I can say. however, if you're a non-subscriber, you'll get a popup when the conversion is complete, not annoying, tolerable. just a few clicks on your ads before you can collect your ton. over time the latency increased until you either bought the ad or had to give up on the results. Thinking it was just a glitch, I held on. but the results were always the same. buy or die, no ticket, no wash. I just couldn't follow this tactic so I deleted the app but couldn't find a suitable replacement. I'm going to miss this app sadly, but I didn't buy a year's subscription because I know the novelty wears off over time and you use it less and less. I would probably be interested in offering a monthly subscription. Oh my God!! Hello, sorry for the inconvenience. Can you give us screenshots of the ads that bother you the most? You can email us at VoilaAIArtist@gmail.com. There are also weekly, monthly and annual subscriptions, but the annual subscription also includes a free trial, but be sure to cancel early (at least 24 hours before the end) to avoid being charged. Cheers Voila AI Artist Most drawing and aging apps are so fake and make you pay \$40 a month or whatever, but the only in-app purchase in this case is to remove the watermark and stuff. It's completely optional and really cheap if you wantbuy that too. You have to watch a 15 second ad to see the results, but I'm fine with that. (You can remove the ads, it costs money and I'm broke  ) So PLEASE PLEASE don't waste your money on these other junk apps with expensive in-app purchases and just get this one. So easy to use! I also love the new updates they release - me and my friends are obsessed with it and do it all the time!! They are always so nice and we love it so much. THANK YOU TO ALL THE ARTISTS Thanks for the feedback! I'm so glad you and your friends are having fun :) Regards Voila AI Artist! This app is really amazing! But there are also some things that can be changed in the app! The best parts are that you can go through, choose different filters and get tons of fun photos in your camera roll from this app! Some things that need to be changed are that you should not be rewarded! If it's a premium app, usually no one will buy it and people will stop using it more and more! Also, I hate being asked to rate them over and over again. It just gets on his nerves and he will just uninstall the app!   Come on guys, you have to do it!  Another thing is that it's annoying if you keep asking if you just wait a little bit, they'll go and do it if they want to!   Overall this app is pretty good   Hello! Thanks for the feedback. The program has a paid version, but it can also be used for free forever. Your rating and feedback, and your feedback in general, help us continue to improve the app. Sorry if this is a little annoying, we'll see if we can do something about it to make it less repetitive. Thanks again for taking the time to send us feedback.
