The argument also assumes... that equal rights cannot be secured to the negro except by an enforced commingling of the two races. We cannot accept this proposition." The following excerpt is from the majority decision of Brown v. The second excerpt is the War Department's response issued a few days later: "After a study it became apparent that such an operation could be executed only by the diversion of considerable air support essential to the success of our forces now engaged in decisive operations elsewhere and would in any case be of such doubtful efficacy that it would not warrant the use of our resources." The third excerpt comes from a report by the US consulate in Switzerland in 1942: "Informers reported to have close connections with highest German authorities who has previously generally reliable reports says that in Fuehrer's [sic] headquarters plan under consideration to exterminate at one blow this fall three and half to four millions Jews following deportation from countries occupied, controlled by Germany and concentration in east."
