Unrestrict from the menu. 2. What's the difference between Instagram Restrict and Block? Block, as you know, completely cuts the connection between you and the blocked person. The blocked person won't be able to see your posts, stories, reels, etc. They cannot like, comment, or even send a message. The same happens from your side. On the
contrary, Restrict mode only affects comments and messages primarily. They can still see your posts, stories, etc. Moreover, one can easily find out if they are blocked whereas it's not that easy in case of restricting the accounts. 3. What happens to comments and messages when you unrestrict someone? When you unrestrict someone, the restricted
comments will continue to stay restricted. You can still approve or delete them. On the other hand, the message thread will show in the chat list and you can now send messages to the user. 4. When you unrestrict someone, do you have to follow the person again? No. Restricting someone doesn't make you unfollow them. So you don't have to follow
them again. 5. Is There Any Way to Know if Someone Has Restricted You on Instagram There isn't any direct way to know if someone has restricted you. However, you can ask a mutual friend to look for your comment under the person might have approved the
comment. Similarly, you can look for the missing green online symbol in chats. Again, this is not a foolproof way to check as anyone can deactivate the activity status. Apart from restricting on Instagram, you can temporarily limit unwanted comments on your profile to avoid bullying and trolling. explainedInstagramPrivacysocial media Quick Tips

invisible to each other on the platform. This means you can't see each other's content, profiles, or activities. But how does this affect story views?What Happens When You Block After Viewer list. However, once you block them
Instagram removes your view from their story viewer list. It's as if you never saw it. But remember, there's a catch: If the person checks their viewer list, before you block someone after viewing their story but before they check their viewer list,
they won't know you were there. On the other hand, if they're quick to check who's seen their story, your name will be there, loud and clear, until you hit that block button. When talking about privacy on social media, there's more to consider than just story views. Here are some additional points to ponder: Profile Visibility: Once you block someone,
your profile becomes completely invisible to them. They can't find you through search or see any of your activities. Direct Messages: Blocking someone also removes your direct message thread with them. It's like wiping the slate clean. Comments and Likes: Any comments or likes you've left on each other's posts disappear after blocking. It's as though
you never interacted. Can You Be Completely Invisible on Instagram? While blocking someone offers a high level of privacy, it's not foolproof. There are ways for users to create new accounts or view public profiles without logging in. So, while you can make it difficult for someone to see your activities, complete invisibility is hard to achieve on social
media. In conclusion, if you're concerned about someone knowing you've viewed their Instagram story, the safest bet is to block them promptly. But do so with the understanding that if they're vigilant, they might catch a glimpse of your name on their viewer list before you vanish. Remember, social media is a public space, and privacy is often limited.
Always think twice before viewing content if you're concerned about leaving a digital trail. In the end, being mindful of your online actions is the best way to maintain your privacy.
