File translation from \$0.07 We have verified experts who translate .txt, .pdf, .doc(x), .xls(x), .odt, .rtf, .ppt(x), .xliff, .csv, .po, .indd, .idml, .ai & .fig files. Translated by a professional Expedited turnaround available Delivered in editable format Free revisions Transliteration is a process of transferring similar-sounding words from one language to another. To give you an example, typing simihi mani yibalali? will be transliterated into ? Whereas, translation is a process of converting the written word from one language to another. For E.g. converting text written from English to Amharic. Our online translation software uses either Google, Microsoft, or Yandex to translate word, sentence, and phrase from English to Amharic. Whenever you enter words, sentences, or phrases in English and click on the Translate button, our software sends a request to Google, Microsoft, or Yandex for translation. Their backend system uses some of the cutting edge technologies such as artificial intelligence, Web APIs, Big Data, etc to perform high-quality translations, and send back the response in Amharic. All this process just takes a split second. At a moment you can only use our Amharic translator online. However, you can download and install Google Translation Chrome extension tool on your Google Chrome browser. With this, you can either translate the entire page you are browsing by clicking the translation icon on the browser toolbar. Or, you can also highlight and right-click the section of the text, and click on the Translate icon to get the translation result in a language you have chosen from the dropdown menu. Our Amharic translation software uses automated machine-language technology provided by Google or Microsoft. As humans are not involved, in some cases it will miss the context and cultural nuances of the language. Having said so, our translator is useful for those who need help framing the sentence and get a general idea of what the sentence, or phrase is conveying the message. With little modification, you can get near to perfect translation. We have also embedded Amharic transliteration, with a help of which you can easily edit, modify or add Amharic text. Furthermore, the Google and Microsoft Translation API is evolving every day and as time goes by the translation result is going to be pretty accurate. Yes. Our translator is 100% free. However, we have few restrictions in place to ensure that robots or automated software are not abusing our service. At any time you can translate up to a maximum of 1500 characters per request. But you can make unlimited requests provided that you don't misuse our software. You can use third-party services, such as Yandex to translate words or sentences embedded in images or graphics. Alternatively, if you are using a smartphone, you can download the Google Translate app that allows you to translate a picture. For this, you need to give Google Translate access to your camera. Once this is done, you can open the Google Translate app and tap on the Camera icon to translate any text on the picture. Embark on your language journey with essential greetings and introductions. This section teaches you the art of saying hello, making a great first impression, and understanding the subtleties of cultural etiquette in your target language. English Amharic Hello! Hi there! What's the best way to explore the city? Are there any events happening this weekend? Where's a good place to relax? Any popular local traditions? English is a West Germanic language that was first spoken in early medieval England and is now a global lingua franca. English has developed over the centuries, absorbing influences from other languages, including Latin, French, and Norse, and has become one of the most widely spoken languages in the world, with an estimated 1.5 billion speakers. Amharic Amharic is an Afro-Asiatic language spoken in Ethiopia, where it is an official working language. It is the second most widely spoken Semitic language after Arabic, and is the official language of the Ethiopian Orthodox Tewahedo Church. The language has a long literary tradition, dating back to the 13th century. In today's interconnected world, the ability to communicate across language barriers is invaluable. Our English to Amharic translation tool is crafted to meet this need, offering high-quality, reliable translations for a broad spectrum of users, from students and professionals to language enthusiasts. The tool utilizes advanced language processing technologies to deliver not just word-for-word translations but contextually accurate and nuanced renditions of your original text. This is particularly crucial for languages with significant cultural and contextual diversity like English and Amharic.
