To make Google your default search engine on various browsers, follow these steps. If you don't see your browser below, check its help resources for more information. Firefox Open Google Chrome or Mozilla Firefox and navigate to www.google.com. Right-click on the Google page and select "Set as home page." Google Chrome In the top right corner of your browser, click More Settings. Scroll down to the bottom and click "Advanced." Under "Appearance," toggle on "Show home button." Select your current homepage or enter a custom URL, such as www.google.com. Safari Open Safari and navigate to Preferences. General. Next to "New windows open with" and "New tabs open with," select Homepage. Enter: www.google.com. Internet Explorer In the menu bar on the top of your browser, click Tools. Select Internet Options. Click the General tab. Under "Home page," enter: www.google.com. Click OK and restart your browser. Microsoft Edge Open Microsoft Edge and navigate to Settings. Scroll down to "Services" and select Address bar and search. In the "Search engine used in address bar" drop-down, click Google. If you have a current homepage, click X next to it and enter: www.google.com. If you can't change your default search engine to Google without permission, reset your settings. Check if any unwanted programs (malware) are causing the issue, which could be imitating the Google site. To do this, follow these steps for your specific browser.
