With Apple Arcade launching later this month, a lot of general public attention has been drawn to the service, which will be available for \$4.99 per month with a one-month free trial. However, there has been some confusion about what being exclusive to Apple Arcade actually means Apple Arcade gives you unlimited access to 100+ games available in the service with no additional purchases or in-app ads. You can play online or offline, and games are available across iPhone, iPad, Apple TV, and Mac. With Family Sharing, up to 6 people can play with just one monthly \$4.99 payment. Apple will be adding new games to the Arcade library every month. You can get a sense of whats available in Apples 100-second teaser video. However, the company has also touted that games are exclusive to Arcade. This has caused some confusion as a lot of the games shown are going to be available on other platforms like PC or video game consoles. Heres what being exclusive to Apple Arcade means. The game is a mobile-exclusive and cannot be released on other mobile operating systems. This essentially boils down to meaning the games will not be available on Android/Video game consoles are not considered mobile under Apples definition. So, Arcade games can still launch on Nintendo Switch, for instance, even though that could technically be considered a mobile handheld platform. A lot of the Arcade games will be multi-platform. Apple demoted Sayonara: Wild Hearts at the event on Tuesday. It will be launching on Nintendo Switch, PlayStation 4, and Apple Arcade. In Apple Arcade, its part of your subscription. For the console release, the game is sold for \$13. The other restriction for game developers is that games cannot appear in other subscription services. This means the games will not be available in the normal App Store sections, as either free-to-play or pay-once titles. They are only available in the Apple Arcade tab of the iOS 13 App Store. Apple Arcade launches from next week. You can update to iOS 13 on your iPhone on September 19 and sign up for the Arcade trial. Arcade will launch on iPad with the public iPadOS release on September 30. The new tvOS update is also being released on September 30, which includes Arcade support. Apple Arcade for the Mac requires macOS Catalina. Apple has not given a firm date for Catalinas release, but it will be sometime in October. FTC: We use income earning auto affiliate links. More. Apple Arcade adds six new games this April 2025. Katamari Damacy Rolling LIVE, Space Invaders Infinity Gene Evolve, and puffies. are part of the lineup. Are you ready for an exciting month of new games on Apple Arcade? April 2025 is going to be the right month for the same, as many new games are hitting Apple Arcade, the list of which Ill dive into in this space. Its been nearly eight years since we got a new Katamari Damacy game, and now its back, thanks to Apple Arcade. In Katamari Damacy Rolling LIVE, youll roll up objects to grow your Katamari, just as the King of All Cosmos commands. Katamari Damacy Rolling LIVE (Image via Bandai Namco Entertainment) But this time, theres a twist as your progress powers up the Kings life stream, with game fans reacting as you roll! The bigger the Katamari, the more viewers youll attract. Find it in the App Store. If you love classic arcade shooters, this ones a must-play. Spied Invaders Infinity Gene Evolve starts as the traditional Space Invaders you know, but as you progress, it transforms into a high-speed, visually stunning 3D shoot-em-up. Space Invaders Infinity Gene Evolve (Image via TAITO Corporation) Youll unlock powerful ships from legendary TAITO games like Darius, Night Striker, and RayStorm, making this a nostalgic yet fresh experience. Plus, you can switch between classic and modern styles whenever you want. Find it on the App Store. Ever wanted to play with puffy stickers like when you were a kid? Puffies. takes that idea and turns it into a relaxing puzzle game. Each level lets you solve hand-designed sticker puzzles, unlock cute sticker packs, and build your puffy sticker collection. Puffies (Image via Lykkegaard Europe Limited) You can even compete with other players on the leaderboards through daily challenges. If youre in the mood for something calm and nostalgic, this is a perfect pick. Curious already? You can find it on the App Store before its launch. One of the most legendary theme park simulators is making its way to Apple Arcade. RollerCoaster Tycoon Classic+ combines the best of RollerCoaster Tycoon 1 and 2, letting you build wild coasters, manage parks, and create your dream amusement empire. This version is optimized for iPhone and iPad and even comes with three expansion packs named Wacky Worlds, Time Twister, and Toolkit, so youll have endless creative possibilities. If you love strategy and building games, learn more about it on the App Store. This modern sequel to the classic board game brings even more life choices to Apple Arcade. In The Game of Life 2+, you can choose who you want to be. Be it that you want to become a dolphin trainer, adopt a pet, or pursue a dream career, its all up to you. Exclusive to Apple Arcade, this version introduces a futuristic P.E.G. outfit and 10 unique job titles to explore. Spin the wheel, make decisions, and see where life takes you. Find it on the App Store. Sesame Street Mecha Builders+ is a fun way to explore STEM (Science, Technology, Engineering, and Mathematics) concepts with Elmo, Cookie Monster, and Abby Cadabby. Follow Us In this article, well teach you how Apple Arcade works, plus answer some common questions and provide actionable tips. Lets jump in! What is Apple Arcade?Apple Arcade is an exclusive subscription service for Apple devices that offers users access to a curated collection of mobile games. These games are free of ads and in-app purchases and can be played offline, making them accessible anytime, anywhere. The product pages for Apple Arcade games have unique layout elements compared to regular App Store pages.Video banner that plays automatically at the topThe game icons centered layout is above the Apple Arcade badge, followed by the app title, subtitle, and an enlarged Get buttonInformation placement elements that occupy the first screen push the information panel and screenshot gallery to the second screen, requiring users to scroll down to view them.Source: Apple App StoreHow can Apple Arcade games be discovered?Apple Arcade games can be discovered through the dedicated search filters (or as part of regular search results). They can also be highlighted as featured content on the games tab or in the Apple Arcade tab.In search results, Apple Arcade games are easily identifiable by a badge above their app title. Unlike regular apps, they do not display star ratings or the number of associated ratings.Source: Apple App StoreAll iOS users can access the Apple Arcade tab on the App Store, where they can explore content through editorial features, app collections, dedicated category rankings, and pre-order announcements.What are the benefits of Apple Arcade?The benefits of Apple Arcade are unlimited access to a curated selection of games without any ads or in-app purchases, offline play, controller support, family sharing, and cross-platform availability.One of the standout features of Apple Arcade is the uninterrupted and immersive gaming experience, allowing players to engage fully with the content without ads and in-app purchases. Another significant benefit is the ability to play games across different devices, which is particularly useful for those who travel frequently or are in situations with limited internet connectivity. As previously said, Apple Arcade also boasts cross-platform availability. Subscribers can play games across multiple Apple devices, including iPhone, iPad, Mac, and Apple TV, with progress syncing seamlessly between devices. Family Sharing is another attractive feature of Apple Arcade. A single subscription can be shared with up to five family members, allowing everyone to enjoy the benefits without needing separate subscriptions. The service is continually updated with new games, so subscribers get a constant stream of fresh games. This regular addition of new titles keeps the gaming experience exciting and engaging. Lastly, many Apple Arcade games support controllers, enhancing the gaming experience for those who prefer physical controls over touchscreens. The differences between Apple Arcade and normal mobile games are the Apple Arcades ad-free environment, the offline play capability, platform-exclusive games for subscribers, and distinct product pages without ratings and reviews. What is the impact of the Apple Arcade on app store optimization (ASO)?Apple Arcade significantly boosts ASO because the platform enhances the visibility and discoverability of mobile games. For game owners that means more potential downloads and better conversion rates. However, the lack of visible ratings and reviews might influence user decision-making. How can game developers use Apple Arcade to improve their ASO?Apple Arcade offers game developers an amazing opportunity to improve their ASO efforts through a couple of ways:boosted visibilitymetadata indexingkeyword optimizationConversion rate optimizationGames on Apple Arcade get prime placement in the App Store, showing up in search results, the Games tab, and a dedicated Apple Arcade section. This spotlight can drive more downloads.Sonic racing is another big hit that comes with Apple Arcade. Source: Apple App StoreLike any other game, Apple Arcade titles have their metadata indexed, making them searchable and discoverable. Developers can fine-tune their games metadata with relevant keywords that potential players might use, increasing the likelihood of appearing in search results.Apple Arcade games benefit from a unique product page design featuring auto-playing videos and a prominent Get button, which can help boost conversion rates. How does Apple Arcade differ from Google Play Pass?The main differences between Apple Arcade and Google Play Pass are game exclusivity, device availability, the way developers are compensated, and Apple Arcades discoverability and visibility features. Heres more context behind the mentioned differences:Apple Arcade features games exclusive to its platform, while Google Play Pass includes games that can be purchased individually on the Play Store.Apple Arcade is dedicated solely to games, whereas Google Play Pass offers a mix of games and apps.Apple Arcade is available on iOS devices like iPhones, iPads, Apple TVs, and Macs. Google Play Pass, on the other hand, is available on Android devices.Apple Arcade has a dedicated tab in the App Store, making it easy to find. Google Play Pass has a dedicated tab that is only available to subscribers.Apple Arcade compensates developers based on user engagement and time spent playing. Google Play Pass uses an algorithmic model to determine royalties based on user value for different types of content.How much does Apple Arcade cost?Apple Arcade costs \$6.99 per month in the United States. There are a few ways to get it at a lower cost or even for free:Get an annual subscription Offer for the yearly plan at \$49.99, which breaks down to a lower monthly rate.Start a free trial New subscribers can enjoy a one-month free trial to explore the service.Try Apple One Apple Arcade is bundled with the Apple One Individual and Family plans, offering more value.Purchase a new device Get three months of Apple Arcade for free when you buy a new Apple device.Keep in mind that prices and offers can vary based on location and current promotions.How can you track Apple Arcade analytics?You can track Apple Arcade analytics using App Store Connect tracking tools.Heres a short rundown of App Store Connect features for keeping tabs on the games arcade performance and visibility metrics:App Analytics in App Store ConnectThis tool provides subscriber-specific information about how users discover and interact with your game.You can track metrics such as impressions, product page views, downloads, and user engagement (e.g., the number of active subscribers, the likelihood of appearing in search results, the number of subscribers who played the game, the number of game sessions, etc.) These metrics can be filtered by territory, source type, device, etc. Sales and trends reports in App Store ConnectThese reports provide financial data, including earnings from Apple Arcade subscriptions and trends. You can view daily, weekly, monthly, and yearly reports to understand your games financial performance.Custom In-App EventsImplement custom in-app events to track specific actions within your game, such as level completions or other relevant interactions. This data can be viewed in App Analytics to gain insights into user behavior and optimize your game accordingly.Final thoughts on Apple ArcadeApple Arcade is a subscription service that offers a unique and premium gaming experience. The platform has an ad-free environment, offline play capability, exclusive content, curated selection, distinct product pages that have ratings and reviews. Game developers and marketers can leverage Apple Arcade to boost their App Store Optimization (ASO) as it boosts visibility and discoverability of games, leading to more downloads and better conversion rates. The already-extraordinary Apple Arcade is about to get even better with the addition of five new games, including a platform exclusive from the team behind the acclaimed What the Golf? and What the Car? games. What the Clash? is a fast-paced multiplayer title that parts table tennis, park archery, and part tag. It will be available on May 1, 2025, and its an ideal game for when you want to blow off steam in truly ridiculous 1v1 games. You play as The Hand (a Stretch Armstrong-like figure thats a hand with legs, and yes, its as unsettling as it sounds) and take on opponents in a series of wacky minigames. For those of you that miss Nintendogs, with my Buddy is a great alternative that lets you take care of a virtual pet. You can dress them up, play with them, and a lot more, because who doesnt need an adorable animal in their life? Nadeem Sarwar / DigitalTrends Lego Friends Heartlake Rush+ puts players behind the plastic block wheel of a Lego vehicle. Customize your car with its own appearance and then take on races and missions to unlock even more items. And dont think its limited to just cars, either; the preview image for the game shows someone in what looks like a jet, so theres a lot of potential to build whatever you want. You can think of Words of Wonders: Search+ as what it sounds like: a hidden word search game, but it has a twist. You explore different landmarks across the globe while playing, and the game gradually introduces new words to keep things fresh (and help players expand their vocabulary a bit, too). The final new addition to Apple Arcade is Sumi Sumi: Matching Puzzle+. This cute puzzler has players match different characters like Rilakkuma and Sumikko Gurashi names you might recognize from San-X, a Japanese company known for its adorable little characters. Apple Arcade is constantly getting new games, and each new addition makes it even more appealing. You can try it out for \$7 per month, or get it as part of the Apple One plan starting at \$20 per month. Currently, there are more than 200 different games to choose from and play, all ad-free. Patrick has written about tech for more than 15 years and isn't slowing down anytime soon. With previous clients ranging from Apple announced watchOS 26 at WWDC 2025, and the new Watch update comes with a fresh new look and plenty of features. Apple has ensured there are plenty of watchOS 26 supported devices, so if you have a relatively new Watch you should get the update this year. Read more Apple announced iOS 26 at WWDC 2025, and the new iPhone update comes with a fresh new Liquid Glass look and plenty of features - and there are loads of iOS 26 supported devices, which is great news. And no, you haven't missed a volley of updates since iOS 18 in 2024. Apple has skipped a bunch of numbers, so instead of giving us iOS 19 in 2025, we got iOS 26 alongside iPadOS 26, macOS 26, watchOS 26 and tvOS 26. In short, Apple's brought it from the glut of free-to-play junk on the App Store, it'll certainly give fans of indie games and classic franchises one heck of a value. Get instant access to breaking news, the hottest reviews, great deals and helpful tips. The Apple Arcade service continues to add plenty of high-quality games across all genres you can think of. And to access them, all you need is an iOS or macOS-powered device. In return for subscribing to the service, you enjoy access to hundreds of games that have been vetted for quality and entertainment. Theyve also been stripped of any annoying ads and microtransactions. Below, youll find the best games on Apple Arcade today. What is Apple Arcade? Apple Arcade is a membership plan you can subscribe to access hundreds of games on iPhones, iPads, Macs, Apple TVs, and Apple Vision Pro devices. Best Games on Apple ArcadeRather than waste time browsing through hundreds of games on Apple Arcade, weve narrowed down the search for you to the best games on Apple Arcade below.10. Assemble With CareAssemble with Care (by Ustwo Games) - iOS (Apple Arcade) GameplayAssemble With Care is the most unexpected emotional story youll play. It starts off simple with an antique restorer arriving in a new town. There, you find people needing your help restoring their prized possessions. There'll be 12 objects in total that youll repair over time. However, as you progress, youll discover the stories and secrets that lie in these objects. And even more interesting is how these stories connect with the people who own them.9. Balatro+ Balatro - Official Launch TrailerIts a wonder how Balatro was developed by one person. Its caused quite the stir in the gaming world by its deceptively simple but addictive mechanics. This is the card game of your dreams, where youll begin unlocking new cards only to realize deeper strategies to beat your opponent. It gets more exciting when you add Joker cards that can change the rules of the entire game.8. FantasiaFantasia - Official Gameplay Features Overview TrailerIf youre looking for a mind-bending fantasy epic on your Apple device, Fantasia is the game for you. It's a story-driven, turn-based strategy game with a rich, detailed world. You'll explore a vast, mysterious landscape, uncover ancient secrets, and battle powerful enemies. The game's depth and complexity are unparalleled, offering a truly immersive experience.7. Hello Kitty Island AdventureHello Kitty Island Adventure - Exclusive Launch TrailerAnother charming story you wont want to miss out on is Hello Kitty Island Adventure. Ranking among the best games on Apple Arcade, you follow Hello Kitty and Friends as they embark on a vacation. However, their plane crashes into a deserted island. Stranded in the middle of nowhere, you have no choice but to develop the island, restoring it to its former glory. Youll build new hotels, decorate them, and attract new tourists as a result. Although initially simplistic, the gameplay quickly sinks its teeth into your soul, taking you on a most pleasant exploration and building journey.6. What the Golf?WHAT THE GOLF? Release TrailerWhat the Golf? isnt at all your ordinary game. Its two worlds: surprising and hilarious. Youre constantly bombarded with the most out-of-the-box ways to put the ball in the hole. Everything is golf here, whether a school bus you haul across the golf course, an office chair, or a trophy. You also switch up on the course itself, playing on snowy terrains that wont waste the chance to make you fall flat on your face.5. Samba De Amigo: Party-to-GoSamba de Amigo | Launch Trailer | Available Now!Enjoy dancing to the beat of the music with Samba and friends. Some of the tracks youll be dancing to are from Lady Gaga, PSY, and more. So, definitely some upbeat and addictive music coming your way. Most of all, Samba De Amigo: Party-to-Go lives up to its name: its a party with friends, striving to cash in on as many in-game rewards and points as possible.4. KnotwordzIf youre playing on an iPhone, then I recommend downloading Knotwordz. As you might know, puzzle games are what will keep you returning for more, especially ones with infinite levels. And the rules are simple-to-use for any gamer to try. All you need to do is form words that make sense either vertically or horizontally. Thats it. Over time, the puzzles will grow more difficult. And you can always challenge yourself to see how far you can go before failing a level. Catchy you can play with your Apple device, or on the go.3. The Oregon TrailThe Oregon TrailAn epic adventure awaits you in the American West. Just you and your caravan, chaperoning your family across the Oregon Trail. This will be a road trip youll never forget, with lots of surprises and challenges along the way. Youll run into the most breathtaking nature, interacting with NPCs and learning about the mountains and valleys on the Oregon Trail. However, youll also be tested on resource management, regulating the scarce supplies you have to cater to everyone's basic needs, along with problem-solving when you face unexpected weather changes and dangers on the road.2. NUTS!: Infinite Forest RunNuts!: Infinite Forest Run - iOS - iPhone 5 GameplayYou cant let those delicious nuts get away, especially when youre a squirrel living off of them. So, make sure to keep up pace with the high-speed, vertical climb up an infinite tree in NUTS!: Infinite Forest Run. Like Temple Run, youll run into coins to collect on the way to the top, further spicing up the challenge. And therell be multiple levels to beat, varying in speed and branches obstructing a clear path. Thanks to simple mechanics, any gamer can play this game. And quite quickly, youll realize just how addictive it can be.1. Threes!Threes - Official TrailerAnother puzzle game, ranking at the top of the best games on Apple Arcade, is Threes! Simply slide the numbers to the left, right, or downwards to form multiples of three. Easy, right? It starts off simple and quickly increases in challenge when youre summing up bigger numbers. Ultimately, youll run out of space on the screen, prompting a restart. But before then, you can challenge yourself to see just how far you can reach on the infinite number of levels you can unlock. And by all means, do take a breather when you get stuck, returning to challenge yourself once more with a fresh mind. Apple has announced that five new games will launch on Apple Arcade next month. On June 5, players can enjoy these new games with family and friends, including UNO: Arcade Edition, the official reimagining of one of the most popular card games in the world; LEGO Hill Climb Adventures+, where iconic LEGO worlds and Hill Climb Racing's physics-based gameplay collide; Lost in Play+, an uplifting and wholesome point-and-click adventure; classic 3D arcade bouncing game Helix Jump+; and WHAT THE CAR? For Apple Vision Pro, a new spatial version of the highly rated racing comedy game. New updates to popular Arcade titles include a special Paddington event in Crayola Create and Play+ starting June 26; a new Queens neighborhood in Skate City, New York on May 22; and the arrival of Diesel himself, Shagunille O'Neal, in a Create and Play+ event. UNO: Arcade Edition is a digital version of the classic card game, featuring vibrant visuals, exciting Apple Arcade-exclusive gameplay, and multiple ways for UNO fans to play. Players can unwind with entertaining solo matches using classic UNO rules, or turn up the heat with a new Custom Games mode featuring new options like Wild Swap Hands and Color Showdown. With three game modes (Quick Match, Custom Games, and Single Player) and rich customizations including unlockable creative frames, special effects, and emotes every game feels fun and fresh. Whether playing solo or enjoying matches with friends and family, UNO: Arcade Edition delivers an entertaining and engaging experience anywhere. WHAT THE CAR? by TribandIndie developer Triband's hilarious racing adventure takes on a whole new dimension. Using a floating TV portal with legs and an extendable steering wheel, players with Apple Vision Pro will use their hands as if holding a physical steering wheel to maneuver an unconventional race car with constantly changing features, such as legs, wings, and even the common cold. The wacky gameplay elements leverage spatial computing to pop out of the screen, making each race an adventure full of lively twists and turns. LEGO Hill Climb Adventures+ by FingersOrLEGO Hill Climb Adventures+ invites players on a grand adventure where the creative charm of LEGO meets the wild physics-based gameplay of Hill Climb Racing. Players will race, explore, and build their way through dynamic locations from sunny countrysides to the highest mountains and the daunting great below. With a cast of lovable LEGO Minifigures, upgradeable vehicles equipped with unique gadgets, and hidden secrets around every turn, the game offers a perfect mix of discovery, strategy, and action. Lost in Play+ by Happy Juice Games and Snappbreak Games The 2023 App Store Awards winner for iPad Game of the Year, Lost in Play+ is a journey through childhood imagination with thoughtfully crafted puzzles and colorful characters. Players must help a brother-and-sister duo on an adventure to find their way back home, exploring enchanted forests, outwitting quirky goblins, and befriending magical creatures. The young siblings' adventure is filled with clever puzzles, minigames, and dreamlike surprises. With no dialogue, point-and-click gameplay, and a hand-drawn animation style, Lost in Play+ is a wholesome and delightful interactive cartoon where fantasy and curiosity come to life. Helix Jump+ by Voodoo and Orbital KnightHelix Jump+ is the classic 3D arcade game and genre-defining hit, reimagined exclusively for Apple Arcade with reworked haptic, enhanced visual effects, exclusive unlockable skins, and no ads or interruptions. Players will guide a bouncing ball through vibrant, twisting helix towers, timing their drops with precision to avoid traps and smash through platforms in a test of rhythm and momentum. Apple also announced some updates coming soon: On June 26, families can join Paddington for a special summer event, featuring a seven-day interactive quest full of heartwarming and colorful adventures, imaginative play, and priceless Paddington moments in Crayola Create and Play+ by Red Games Co. On May 22, players can explore Queens and master 20 new Free Skate goals in Skate City: New York by Snowman and Agens. On May 8, Shaquille O'Neal is the latest Greatest player to be added to the Greatest Mode in NBA 2K25 Arcade Edition by 2K. Additional fan-favorite titles getting updates this month include Hello Kitty Island Adventure, Shovel Knight Dig, Katamari Damacy Rolling LIVE, Angry Birds Reloaded, puffies., Grindstone, Fruit Ninja Classic+, Space Invaders Infinity Gene Evolve, and more. Pricing and Availability Apple Arcade is available for \$6.99 (U.S.) per month with a one-month free trial. Customers who purchase a new iPhone, iPad, Mac, or Apple TV receive three months of Apple Arcade for free. Apple Arcade is part of Apple One's Individual (\$19.95 U.S.), Family (\$25.95 U.S.), and Premier (\$37.95 U.S.) monthly plans, with a one-month free trial. Arcade Originals are playable across iPhone, iPad, Mac, Apple TV, and Apple Vision Pro. App Store Greats are available on iPhone, iPad, and Vision Pro. An Apple Arcade subscription gives a family of up to six unlimited access to all the games in its catalog. Availability for the 200+ games across devices varies based on hardware and software compatibility. Some games may not be available in all areas. As someone who grew up in the late 90s and early 2000s, I played a ton of simulation games on my computer. Games like The Sims, Age of Mythology, and Roller Coaster Tycoon are synonymous with my childhood. So when I saw that Apple was bringing the original Roller Coaster Tycoon to Apple Arcade, I dropped everything and put it on my iPad Pro. I was immediately taken back! In that same light, Apple released five other brand-new games that are worth taking a look at! As I said in the intro, Roller Coaster Tycoon for Apple Arcade is not the only game released. Five others have been released, and some are still scratching that nostalgic itch. Of course, I am most excited about Roller Coaster Tycoon. But even games like Space Invaders, which I used to spend hours playing, and bringing the Game of Life to your iPad are something I cant wait to try. The standout title this month is Katamari Damacy Rolling LIVE. This is the franchises first original game in nearly eight years. This is an action game where players expand their Katamari by rolling up objects scattered on the map. The goal is to complete the kings challenges and boost their subscriber count to unlock new levels in the game. You can access all of these games today by being an Apple Arcade subscriber. It is available for \$6.99 monthly as a standalone service or bundle with Apple One! What do you think of these titles? Are you an Apple Arcade subscriber? FTC: We use income earning auto affiliate links. More. Apple just announced a line-up of five new games coming to Apple Arcade in the coming weeks, including WHAT THE CLASH?, a new party game from the team behind WHAT THE GOLF? and WHAT THE CAR?. Heres whats coming. Five new games are coming to Apple Arcade on Thursday, May 1. Heres the full line-up: As you can see from the + that's appended to three out of five titles, the majority of these games have existing counterparts on the App Store, but the + means this Arcade version comes with the benefits of being ad-free and in-app purchase-free. WHAT THE CLASH? is the clear highlight, hailing from Triband who has already gained notoriety on Apple Arcade for its prior games, WHAT THE GOLF? and WHAT THE CAR?. Heres the game description: Play solo or challenge friends to one-on-one battles in this hilarious party game. Players unlock modifier cards to create absurd combos like giraffe, toasty archery, sticky tennis, milk the fish, and more. They'll climb the leaderboards, enter tournaments, or find new card combinations to make each match a chaotic and fun surprise with quirky twists. With simple touch controls, everyone plays as The Hand, a charming and stretchy hand with legs that players can customize with hundreds of combinations of unlockable items like eye patches, dresses, and earrings. Competitors will have to outplay and outgolf their opponents as they go hand-to-hand with family and friends in some seriously silly showdowns. Overall it seems like a slightly slower than average month for new Arcade releases, but WHAT THE CLASH? looks like it could offer an especially good time. Apple Arcade is available as a standalone service for \$6.99/monthor included in the Apple One bundle. It includes access to over 200 games with no ads or in-app purchases. FTC: We use income earning auto affiliate links. More. Apple Arcade offers over 200 ad-free games with no in-app purchases, catering to mobile devices and other Apple platforms. Subscribers often have exclusive access to popular new games before they release on other platforms. The subscription service features a wide range of game genres, including JRPGs, sports games, and family-friendly brawlers. The Apple Arcade subscription service includes over 200 games that members can enjoy without any ads or in-app purchases. These games are designed to be compatible with mobile devices such as phones or tablets, and will often also work with Apple TV or Mac computers. The catalog of options includes every genre from sports to RPGs. For a fee, its subscribers get access to many new releases of App Store favorites without the ads, and it frequently features titles that are not available on other platforms, at least for a time. Popular new games that are on Apple Arcade may eventually come to other platforms, such as Grindstone releasing on Nintendo Switch after Apple Arcade exclusivity, but oftentimes not until a year or more after its initial release. This means that subscribers get exclusive access to these games for quite a while. In other words, its a chance to try titles added to exclusive new games, the subscription service also includes older versions of some well-known franchises like racing world games as Stardew Valley, Disney properties, and even Hello Kitty. Related Hello Kitty Island Adventure would be right at home on the Nintendo Switch, but there's a logical reason for the game not showing up yet. 10 Stitch. (2022) Embroidery Puzzle Game For a truly relaxing, cozy gameplay experience, the Apple Arcade game Stitch, is a simple and beautiful game based on doing embroidery, but without all the extra mess of snagging yarn. Though the period at the end of the game title can cause a bit of confusion, the game itself is as charming as one would imagine, with cute designs and a colorful palette of thread to choose from. Solutions for managing to fill the hoops without any gaps can, at times, be challenging, offering a puzzle mechanic as players balance colors and designs. There are many complex challenges and tiers to compete for, or players can simply enter the Free Stitch mode and play at a relaxed pace, picking whatever colors they wish. While it was originally an Apple Arcade exclusive title, Stitch, is also available as a paid title on the Nintendo Switch. Adorable classic Disney and Pixar characters fill the screen for the 3v3 brawler game, Disney Melee Mania. This family-friendly battle arena game is exclusive to Apple Arcade. The game includes several champions to choose from within the Disney and Pixar universes and each has its own distinct moves and abilities. Multiple game modes are available, with battle arena matches lasting five minutes while players try to score the most points as possible to win. The game also features regular events to keep things exciting, often featuring new characters and costumes available through Star Journeys, which lets things be unlocked through playing the game and winning matches. Though it does not have a Metacritic score yet, the game is among the highest rated titles on the Apple Arcade store. Oceanhorn 2 is an open-world action-adventure game that was released exclusively on Apple Arcade and has since come to other platforms as well. The game is heavily inspired by The Legend of Zelda franchise and is a wonderful way for Apple Arcade subscribers to enjoy a mobile version of that familiar-feeling series. Featuring an intriguing story, clever puzzles, and dangerous dungeons, this RPG provides over 20 hours of content to enjoy. The game has a Metacritic score of 71, and although it is a sequel, it players do not need to have experienced the first game in order to enjoy this title. Oceanhorn 2 is actually a prequel of Oceanhorn, so if players enjoy this second game, they can easily go back to try the first one without confusion. Related Oceanhorn 2 is a very pretty part of a Legend of Zelda-inspired mobile game, but it doesn't do enough to set itself apart from its inspiration. The tower defense genre has many games in the mobile gaming world, but Bloons TD 6 is often referenced as being one of the best, not only among the mobile platforms of tower defense, but for the genre as a whole. Its vibrant colors, creative character upgrades, and absolute chaos that can fill the screen while playing give it an entertaining and addictive quality. Ultimately, players try to prevent the Bloons (balloons) from reaching the end goal, often by placing ridiculous monkey characters, bombs, and more to stop them in their path. Bloons TD 6 is available for purchase on many platforms, including PC, but is free to play for anyone who is already a subscriber of the Apple Arcade service. Sneaky Sasquatch is rated as one of the most popular Apple Arcade games, and won Apple Arcade Game Of The Year when it debuted. The game allows players to take on the role of a Sasquatch at a campground and sneak around the campsites stealing food from campers, dressing up in human clothing, and then essentially doing anything they can get away with. As long as they don't get caught by the park ranger, the Sasquatch can work as a doctor, diagnosing patients, drive vehicles, and even get a team of ducks to do construction. Essentially, this silly and chaotic game will allow players to do anything that they can manage to do without being found out, even eventually running for mayor. Despite its popularity, Sneaky Sasquatch remains exclusive to the Apple Arcade service, with no announced plans to bring it to any other platforms. Classic Sonic the Hedgehog is back with the exciting platform game Sonic Dream Team, which takes Sonic and his friends into an original story of dreams, ultimately having to face off against the infamous Eggman once again. Players will dash, climb, and fly through the levels, collecting golden rings just like in the original Sonic games. There are six playable characters in Sonic Dream Team, and each has unique abilities to set them apart. Sonic Dream Team has a Metacritic score of 75, with a favorable 8.9 user rating as well. Currently, it is only available as an exclusive title to the Apple Arcade service, but rumors state that the game will also be made more widely available in the future, meaning that Apple Arcade members get an early look at this exciting game. Related The studio creative director at Sega HARDlight discusses crafting the imaginative new lore and unique dreamscape world of Sonic Dream Team. Stardew Valley is certainly not exclusive to Apple Arcade, and in fact, the popular indie farming simulator is available on nearly every gaming platform there is. For anyone wanting to experience the game on a mobile device, however, an Apple Arcade subscription is the perfect way to go. The cozy game is a perfect respite from the real world, and this edition of the game has been optimized for mobile devices, and includes auto-save features to keep the game safe even if the app is closed suddenly. There has been a large resurgence in the popularity of Stardew Valley after the massive patch 1.6 dropped and breathed new life into the experience. Unfortunately, at the time of writing, this update has not been made available for mobile or consoles yet, but the developer assures it is on the way. While the mobile Stardew Valley+ has not been given a Metacritic rating, the standard version of the game has a Metacritic score of 89. Fantasia is a JRPG on Apple Arcade that was developed for the service by Final Fantasy creator Hironobu Sakaguchi. The artistic quality of the game sets it apart as it is designed to take place within about 160 handmade dioramas that were photographed and used as the backdrop for 3D models to interact. The premise and storyline are not entirely unique, featuring a young hero with amnesia who has entered an alternate universe, but it is a charming JRPG that has a lot of nostalgic feeling to its gameplay and graphic style. This mobile RPG adventure has a Metacritic score of 80, and is exclusive to Apple Arcade subscribers. It is a long game, much longer than would often be expected from a mobile game, with the average time to beat hovering around 52 hours, depending on player skill level. Hello Kitty Island Adventure is a cozy game inspired by Animal Crossing. New Horizons but using the Sanrio characters. It is exclusive to Apple Arcade and offers a lot of character customization, decorating, and relaxing island adventures to enjoy. Its vibrant graphics and beautiful tropical island setting are a perfect fit for the cheerful Sanrio friends, with plenty to keep players occupied. In some ways, it expands on Animal Crossing's game mechanics, with more of an emphasis on questing and exploration of the island. Similar to other cozy games of this style, NPCs on the island can offer easy quests and players can level up their friendships with them, which then unlock new cooking and crafting recipes and more. Hello Kitty Island Adventure has a Metacritic score of 83, and the peaceful and wholesome life sim game is currently only available to Apple Arcade subscribers. Related In Hello Kitty Island Adventure, cooking delicious recipes to gift to others is one of the best ways to increase friendship levels with many NPCs. Despite the name and appearance, What The Golf is not really a golf game and even includes a disclaimer on the App Store: "This game is made by people who know nothing about golf." Instead, it is filled with humor, puns, and random silliness while letting players attempt to play a physics-based parody of golf that can include anything from flying hoes to fax machines. At first glance, it might start with the appearance of a golf game, but quickly evolves into utter chaos that always leaves players on their toes. What The Golf has a Metacritic score of 84 and was originally designed for and published by Apple Arcade. It is free to play for anyone who is an active subscriber of that service, although the game is now also on PC, PS4, PS5, and Nintendo Switch for a cost. Source: Metacritic (1, 2, 3, 4, 5, 6), Apple App Store
